## BILL ARP ON THE CANDLERS.

How Allen's Father Drilled His Company During the War.

HE DID NOT GIVE COMMANDS

But Made Polite Requests—Predicts That Candler's Election Will Prove of Great Blessing.

in his presence. Gentlemen of the Banks County Guards, you will please to shoulder arms; right face; forward march." He always uncovered his head and thanked them when the drill was over.

These Candler were originally Chaudiers, for I find no Candler in my biography. Probably the ancestor of this Georgia branch got disgusted with those fanatical fellows up north who abused us so and he, dropping a letter from his name and boycotting the whole concern, I have met and domiciled with these Candler in Georgia and Mississippi, and they are alike in strength and force of character and good citizenship. They use no corrupt methods to gain their ends.

These Candler, these Candler, of Congress, they rank their fingers without the aid of fingers, or schemes, or promises. I know some of these Candler away back in the forties, at New Orleans, when the Pigeon Roost gold mine was considered an Eldorado and a remnant of the Cherokees were still hanging around. The fact is our Allen came pretty near being an Indian, for old Mrs. Fascal was his godmother, and she had lived among the Indians. Her son married the daughter of the princess of the tribe, his cousin, Milton Candler, looks more like an Indian than a white man, and all of them have the stigmata of the race.

Why they are all devoted to their kindred and to their moral principles of their ancestors, I do not know, but for some are Baptists and some are Methodists and some are Presbyterians. But whatever they are they are that all over and whatever they do is done well.

So now let rings and combinations take a back seat for a while and let the people speak and Colonel Candler go into office with the old time majority of the old time majority, the rugged honesty of the man will satisfy and gratify the Populists everywhere and all dissensions will be buried. He has already spoken for economy and lower taxes and he means it. The truth is that our tax has got to be burdened too great to be borne, and every legislature adds to it. I remember when the rate was only 10 cents on a hundred dollars, and now it is ten times that in the city. Some towns have got to take hold of this thing and stop it. I want a Moses to lead the people out of their dependency. They have almost despaired of ever seeing purity in State politics again, and the late possum denouement at Newnan, gives no harbinger of improvement.

But Judge Pitt said today that the power of these political combinations was not dead nor dormant, and that while the voice of the people was almost unheeded for a while, it was still possible to defeat him in a nominating convention. County conventions can still be packed by shrewd politicians and the only remedy is to have primaries in every militia district on the same day. Rings may pack one convention, but they can't pack two in a dozen in each county on the same day.

Friends, Romans, countrymen! Let us all awake to the magnitude of the situation and place sentinels on the watchtowers and see to it that honest methods are used in the next election. Let the dead past bury its dead, but let us take care of the future, and as Col. Candler once before united the people of his district and crushed independent and corrupt political harmony out of chaos, so he will now compare wider field and restore harmony to the torn factions of our Georgia democracy. Then all hail to the plowboy of Pigeon Roost—Bill Arrp, in Atlanta (Ga.) Constitution.

## DANGERS OF MORMONISM.

Gen. Eaton Sees in the Religion of Joseph Smith a

MENACE TO OUR INSTITUTIONS.

63,000 Converts Each Year, a Number Almost Incredible, Besides its Nominal Members of 300,000.

The Philadelphia (Pa.) Times says D. C. delivered a lecture at Washington, under the auspices of the Evangelical Alliance. He took for his subject, "The Mormons and the Way to Suppress Them." He said: "The subject which I have chosen may seem an unnecessary one, but the dangers it threatens make its consideration most important. According to the official accounts from the Mormon Propaganda it lately received 63,000 converts each year—a number almost incredible. It has beside its nominal members 300,000 regular communicants.

"The Mormons, though essentially the same as formerly, do not carry out the old plan of conversion. They now visit the houses of persons in pairs, and are very similar in their methods to the followers of Moody. They present a card on gaining admittance and proceed to enumerate the articles of faith, which, as they are written, do not seem so extravagant. They are careful not to give offence, and, having won favor, can obtain a satisfactory hearing. Their hearers, finding no objection to their mild religious statements, become less hostile to the Mormon Church in some members of the Mormon Church in spite of its atrocities.

"The Mormon faith in itself is to be dreaded, but the probability of its unhealthy influence is still worse. The State of Utah, though admitted into the Union by promising to abandon polygamy, is now governed by the followers of Smith, and as their religion is universally adopted the State will make no laws to destroy the danger of this pest which here. The State of Utah has the right to send two Senators to Washington. Two Mormons are, therefore, living at the Capital with their wives and admitted into our most respectable American society. The danger of this is obvious. More than once social intercourse has resulted in the ultimate conversion of Christians to Mormonism. Many who have settled or visited Utah have gone to worship in these pagan churches. The danger of this is obvious. More than once social intercourse has resulted in the ultimate conversion of Christians to Mormonism. Many who have settled or visited Utah have gone to worship in these pagan churches. The danger of this is obvious.

Another danger resulting in the power of Mormonism in Utah is its political strength. Even now nothing could be done in the Senate against it without being strongly opposed by the two Senators just mentioned. In the State itself no one but a Mormon will be received favorably. It is beyond doubt that Mormonism is spreading. They have recently established two headquarters in Mississippi, one in Athens, Ala.; one in Tennessee, and several in New York, New Jersey and other localities near by. Even our own State contains many Mormon converts. They are now erecting schools, academies and even universities to spread their infamous doctrine.

Wife Murderer Hanged.

Edward Shannon, the wife murderer, has been sentenced to be hanged on February 11th, at Wheaton, Ill., by Judge Willis. Shannon is over 70 years old. He showed little emotion when sentenced. Asked if he had anything to say, he tremulously rose and, feebly told how he had saved the life of State's Attorney Wright, when he was a boy. This was the only plea he made for mercy.

License Tax Regulation.

The Virginia Senate passed the House bill to make it unlawful for any lawyer, physician, surgeon, dentist, or any other person engaged in a profession or calling, taxed by the laws of this State, to practice his profession in any county or city of this Commonwealth under a license-tax from any other State or the District of Columbia.

Flood in the Ohio.

Last week a terrible flood raged in the Ohio river, causing great damage to property. T. S. Cross, a salesman of North Vernon, Indiana, was drowned near French Lick, while trying to ford a swollen stream. A farmer named Drury and his father were drowned while trying to ford the Cumberland river. The bodies were recovered three miles below.

With a Pistol.

Jack Caldwell, a prominent and popular young farmer of Mecklenburg county, N. C., shot and instantly killed himself in the room of a friend with whom he had spent the night. His mind had been affected for some time.

The Strike in New England.

The first week of the cotton operatives' strike in New England cotton centres closes with the strikers and the manufacturers firmly maintaining their respective positions.

The Pension Roll.

Senator Cannon has introduced a bill providing for the publication of the pension roll for Jan. 1, 1890, and thereafter as Congress may direct.

Killed by a Bursting Wheel.

At Savannah, Ga., J. W. Lee, a carpenter in the car shops of the Central Railroad, was instantly killed by a bursting pulley wheel. The wheel was being driven at the rate of 324 revolutions a minute, which makes the accident inexplicable to mechanics.

Suicided by Hanging Himself.

M. J. Daugherty, of Pittsburg, Pa., traveling salesman for the American Tea Company, of Zanesville, O., hanged himself in that city while temporarily deranged.

Newbold Acquitted.

W. H. Newbold the dispensary constable charged with the murder of an infatuated old farmer, was tried at Spartanburg, S. C. The jury brought in a verdict of not guilty.

## NEW ENGLAND APPREHENSIVE.

Arrangements Being Made to Bidderford for Serving Strike Rations.

Boston, (Special).—The sum total of the new features in the programme of the textile troubles is the shutting down of the Cabot Mill at Brunswick, Me., because of the desertion of help in sympathy with the striking weavers, and the announcement that a small company of the Social Manufacturing Company, at Woodsville, N. H., would be shut down for a few days for lack of orders. But their troubles, evidently, are not to be confined to mill cities, for the side issue brought up by labor legislation in the Massachusetts Legislature.

It will be recalled that the Act in wages, laid down by the Legislature of Massachusetts, was the first furthering of the repeal of the restrictive measures in force in Massachusetts.

The first finding of an attempt to carry out this recommendation labor representatives in the House introduced bills for new legislation, for a 55-hour week, no overtime for women and children, and to investigate the present textile situation. Along the line of battle from Westford, Mass., to Lewiston, Me., there was absolute quietude. The State board of arbitration has sent Member Barry to the former place to see if the strikers would not abandon the firing issue, but the outcome of his errand is not known.

In Fall River the discontent, although entirely beneath the surface, is growing and the mill officials know it and are taking steps to meet it. The strike of the operatives in defending their position is shown in Biddeford, Me., where arrangements for serving strike rations of soup and food are being made. There the citizens, even to the Chinese laundrymen, are helping money and societies are offering aid. The strikers may assume acute conditions there sooner than at any other place, judging from local indications.

At Biddeford, Me., an effort will be made to organize a strike of the mill workers who desire to return to work under the 10 per cent. cut can do so. The union men are almost positive that not enough will go back to start the mills.

THE GREAT EASTERN.

It is to Do Business in Virginia and the Republic of Venezuela.

Mr. Wickham has introduced a bill in the Virginia Legislature to incorporate the American Development Company of the United States. The bill authorizes the company to purchase, lease, or otherwise acquire, real, personal or mixed property in South America, and more especially to buy, lease, sell, rent, operate and generate, and to develop and construct, grant or franchise, street railroads, bonded warehouses, cattle-pens, cold-storage, and shipping, railroads, telegraph and telephone lines; and to establish, operate, own, perpetuate or generally to work, or cause to be worked, operated, mines, mills, factories, furnaces, electric plants, etc., in the republic of Venezuela. In the State of Virginia and in Venezuela the company shall have power to do a general business of any kind.

John Mosher, of Fishkill, N. Y., drove three miles beside a corpse, not knowing that his companion had died on the journey.

An effort will be made by the New York State to find out what became of the \$20,000 appropriated for improving the Erie Canal.

Logan Carlisle, son of John G., and former chief clerk in the United States Treasury department at Washington, died at the home of his father in New York. Cause, heart failure.

Adlai E. Stevenson, former Vice-President of the United States, has accepted the position of Western counsel of the North American Trust Company, New York, with a membership in the board of directors.

On February 1st 114 looms in the Manchester (N. H.) Cotton Mills will be stopped for an indefinite time. The cause assigned is the falling off in the demand for printed goods. There will also be a reduction of about 10 per cent. in wages, affecting about 30 per cent. of the employees, on January 24th.

Miscellaneous.

The London engineers have agreed to return to work.

The reductions of wages in the New England cotton mills will effect 125,000 operatives.

At Hot Springs, Ark., Jack Everlast knocked out Eddie Donnelly in the sixth round.

Eight millions in gold dust is stored at Dawson City, Alaska. The output this year is expected to reach \$30,000,000.

General John M. Schofield thinks it would be a grave blunder not to annex the Hawaiian Islands.

Dick Drant, the supposed train robber and murderer, was among a dozen prisoners who broke jail at Bentonville, Ark.

The stomachs of Conrad Beck, in St. Louis, and Mrs. E. Bestian, in Milwaukee, were removed by surgeons as a result of cancer. Both patients died.

Governor Black, of New York, will be present at the American Paper and Publishing Association's annual dinner, in New York city on February 17.

George Draham won a race of thirty-five miles against about 200 other Klondike miners who sought to be first on the grounds to secure rich claims on French Pete Creek.

At Boston three boys were asphyxiated by gas.

William Slate, of Leadville, Col., prompted by jealousy, shot and killed Mrs. Minnie Smith and killed himself.

The District of Columbia appropriation bill was reported to the House on the 18th. It carries \$1,377,000, or over half a million dollars less than the current year's appropriation.

At Philadelphia Sam Henderson, 15 years old, has been arrested for the murder of Percy Lockgar, 5 years old. "Yellowback" literature is supposed to be responsible for the deed.

## TOLD IN A PARAGRAPH.

The South.

Atlanta is preparing to celebrate on May 4 and 6 its semi-centennial.

The Virginia Legislature downed the anti-firing bill.

Reginald de Koven is seriously ill at Aiken, S. C., having undergone a surgical operation.

The Norfolk, Va., trucking season has been delayed by frost and there is a scarcity of spinach.

At Marion, S. C., a negro shot and killed his sweetheart because she refused to go to Georgia with him.

There is a bill before the Virginia Legislature for the nomination of Federal Senators by primaries.

C. A. Gammon, a leading merchant of Norfolk, died from his wounds.

In a Sunday card game at Darlington, S. C., Brooks McVey shot and was killed by Deser Murray. Both parties were colored.

Clarence Bartlett, aged 17, has strangely disappeared from the home in Norfolk, Va., of his uncle, a wealthy contractor.

There is much activity at the Norfolk navy yard and a hundred men have returned to work in the construction department.

Mrs. Anita McKee, of Jackson, Miss., has asked President McKinley to appoint her Collector of Internal Revenue at New Orleans, La.

The Georgia Legislature has appropriated \$10,000 for a textile school in Atlanta, provided a similar amount be raised by private subscription.

Dr. Tryeman, a distinguished retired physician of Knoxville, Tenn., who was well known for his deeds of charity and benevolence, died in Columbia, S. C.

The result of the first ballot in the Tennessee Legislature for a United States Senator resulted as follows: McMillan 39, Taylor 30, Taylor 19. It requires 45 to nominate.

The Liberty Woolen Mills, at Bedford City, Va., which has been idle for some time, has been purchased by New York and Philadelphia parties, and it is stated that the mill, properly equipped, will cost \$3,500,000 to \$4,000,000. He said that their estimate included all machinery for making armor-plate, guns and projectiles, and added that if the government adopted the policy of providing its own plant no armor could be expected from such plant for about three years. The committee has taken no action upon the armor-plate matter, and it is considered probable that the whole question will receive attention in that connection.

A COMMERCIAL CONGRESS.

Scheme to Increase an Interchange of Business Between South and West.

Governor Bixnam, of Florida, has issued an invitation to the Governors of the Southern and Western States to attend the fifth annual session of the South and West Commercial Congress, to convene at Tampa, Fla., Feb. 8th, 9th and 10th, 1893. The Governors are also requested to appoint delegates to the congress.

The principal objects of the congress are to consider the means to increase the interchange of all merchandise and manufactured articles between the South and West, and to promote the movement of grain and all other products of the Western States to Southern ports for export. All the Governors, commercial organizations, municipal governments and transportation companies of the South and the West have been requested to appoint delegates to this congress. A great many have already responded and the success of the congress is assured.

Then Ransacked the House for Booby, Cooked Breakfast and Departed.

Five masked men entered the residence of Mrs. Anna Gratz, two miles east of Beaver Dam, O., and at the point of a revolver, bound and gagged every member of the household, consisting of Mrs. Gratz, a daughter, three sons, aged from 10 to 18 years, and two farm hands, John Hauenstein and Adolph Follet. Leaving one of their number to guard their victims the remaining four looted the house, securing about \$10 in money, two gold watches and some jewelry, after which they repaired to the kitchen and cooked breakfast. After eating a hearty meal they departed, leaving the family still bound.

Nominations by the President.

The President has nominated Claude M. Bernard to be attorney of the United States, Eastern district of North Carolina. Also Tyro Glenn to be postmaster at Greensboro, N. C., and Wm. H. Chabourn, postmaster at Wilmington, same State.

Killed Himself With Brother's Pistol.

A special from Maysville, Ky., says: News of the suicide of Miss Harriet Keith Owens, at Crab Orchard farm, the home of her father, Basil D. Owens, near Washington, has reached here. Miss Owens had been in poor health for some time and had to give up her school last fall on that account. She read the account of the shooting of ex-Senator Jos Blackburn's daughter, Mrs. Lane, with much interest. After reading about the shooting she went to her brother's room, secured his pistol, placed it to her temple and fired. Death was instantaneous.

Actor's Wife Gets Absolute Divorce.

At New York, Justice Fryer, in the Supreme Court confirmed the report of ex-Judge Donahue, as referee, recommending that a decree of absolute divorce be granted to Nellie R. Goodwin, wife of Nat C. Goodwin, the actor. Goodwin is ordered to pay to his divorced wife \$75 a week alimony.

Three Men Killed in a Wreck.

The westbound overland train jumped the track near Colfax, Cal., wrecking the train badly. The engineer, fireman and one brakeman were killed.

## THE ARMOR PLATE PLANT.

Full Plans and Specifications Have Been Prepared.

BIDS TO BE OPENED THE 29TH.

It Will Require Three Years to Get the Plant in Operation, and Millions Will Be Required for It.

Washington, (Special).—Secretary Long, accompanied by Chief Construction Engineer, Chief of Ordnance, the Bureau of Ordnance, and Judge Advocate General Lemley, appeared before the Senate committee on naval affairs on the 19th. The Secretary said in response to questions that the Navy Department had prepared full plans and specifications calling for an armor plant under the last naval appropriation bill, and that estimates on the cost of land, tools and machinery necessary to equip the plant had been made. The bids were to be opened on the 29th instant, and he thought several bids would be made.

Secretary Long said also that in view of the report of the committee which he had appointed to consider the question of a government armor plant, upon the great cost and delay it would involve, he had entered into further negotiations with private armor plants, now furnishing armor for other ships, and he believed that he could make a contract for the supply of armor plate for the Illinois, Alabama and Wisconsin, now under course of construction, which would be ready whenever the ships were ready to receive it, at the rate of \$400 per ton. The secretary recommended, in view of the circumstances, that an arrangement to this effect be made.

From the Secretary's statement, corroborated by statements by Commodore Hitchborn and Captain O'Neil, it appears that the cost of a government plant, properly equipped, would be from \$3,500,000 to \$4,000,000. He said that their estimate included all machinery for making armor-plate, guns and projectiles, and added that if the government adopted the policy of providing its own plant no armor could be expected from such plant for about three years. The committee has taken no action upon the armor-plate matter, and it is considered probable that the whole question will receive attention in that connection.
