

A NEW TRIUMPH.

The Dreaded Consumption
Can Be Cured.

T. A. Slocum, the Great Chemist and Scientist,
Will Send to Sufferers Three Free
Bottles of His Newly Discovered
Remedies to Cure Consump-
tion and All Lung
Troubles.

Nothing could be fairer, more philan-
thropic or carry more joy to the afflicted,
than the generous offer of the honored
and distinguished chemist, T. A. Slocum,
M. C., of New York City.

He has discovered a reliable and abso-
lute cure for consumption, and all bron-
chial, throat, lung and chest diseases,
catarrhal affections, general decline and
weakness, loss of flesh and all conditions
of wasting away; and to make its great
merits known, will send three free bottles
of his newly discovered remedies to any
afflicted reader of the Elkin Journal.

Already his "new scientific system of
medicine" has permanently cured thous-
ands of apparently hopeless cases.

The Doctor considers it not only his
professional, but his religious duty—a
duty which he owes to suffering human-
ity—to donate his infallible cure.

He has proved the "dreaded consump-
tion" to be a curable disease beyond a
doubt, in any climate, and has on file in
his American and European laboratories
thousands of "heartfelt testimonials of
gratitude" from those benefited and
cured, in all parts of the world.

Catarrhal and pulmonary troubles lead
to consumption, and consumption, un-
interrupted, means misery and certain
death. Don't delay.

A HORRIBLE ACCIDENT.

Eli Willard Gets Caught in the Machinery
At the Laurel Branch Pin Factory
And is Killed Almost
Instantly.

A Sad Affair.

Saturday morning a telephone
message was received here from
Laurel Branch, Alleghany county,
nineteen miles from here, saying
that Eli Willard had been killed
at the pin factory, which is opera-
ted there by A. L. Brown. It was
about eight o'clock and Willard,
his father and Brown had just fin-
ished loading a wagon with pins
and Foy Willard had started to
Elkin with them. Brown was
eating his breakfast when he heard
Willard's call for help at the fac-
tory. He got there as quickly as
possible but found the poor fellow
fastened in the wheels under the
mill, one hand off, his thigh
broken, the back of his head torn
off and his body twisted and man-
gled all over.
