

A LETTER FROM OUR PRESIDENT.

Hello Boys!

Do you know why you are called upon to fight in this war? We have been correctly informed that two or three dictators have combined to conquer the whole world, and force the peoples of every nation to submit to their dictation.

Those dictators and their armies are going to be demolished -- and you boys are going to help do the job.

Some of our most prominent men often speak of the importance of preserving "The American Way of Life."

You American Soldiers can do that very thing by helping smash Germany, Italy, and Japan--nations which have no regard for the broad personal liberties which, since our government was founded and until recently, constituted the "American Way of Life."

By military force you should promptly smash those foreign and brutal trespassers who are "hell bent" on subjugating and regimenting the whole world.

Also in due time, by a battle of ballots, you should squelch in this country, a meddlesome group of leaders, who seem to be "hell bent" on undermining by regimentation, our time-honored "American Way of Life."

After we win the war -- then what?

Peace between the nations should be perpetuated.

How that may be accomplished was discussed a few nights ago at a Lawyers convention held at my home.

Among the lawyers present were Gov. Clyde Hoey, Gov. O. Max Gardner, Judge E.Y. Webb, Hon. O.M. Hull and others.

The following suggestion was submitted by myself.

Inasmuch as my suggestion was approved by most of those present, I am passing it on to you for your consideration.

HOW TO MAINTAIN AND PERPETUATE WORLD PEACE

I For maintaining World Peace, it would seem advisable to organize an indissoluble World Peace Union of nations, a super-government, composed of those nations which will voluntarily join the union.

II The union to exist and operate under a constitution which will declare that the only purpose of said organization is to preserve peace and prevent war between the nations belonging to the union, or war between the nations in the union and any nation not belonging to the union.

III The government, or congress, of said union to be quite similar in make-up and procedure to that which was adapted for the indissoluble union of our states. That is, having a senate, composed of 2 senators from each member nation that would be elected every 8 years; and having a House of Representatives, composed of representatives elected every 4 years by each member nation. The number from each nation being based on its population--say one representative for every 3 million persons.

IV It shall also have a President and Vice-President, to be elected by the House of Representatives and approved by the Senators, and to be chosen every 6 years. The President to preside over one of these bodies and the Vice-President over the other.
