

# Radio Shop Plays Santa

HAPPINESS IS A RADIO—Carl Mullins, left, and Al Lenderman presented Sammy with his radio on behalf of the Radio Shop at INT.

by K. D. Oakley, INT Radio Shop

Every year at Christmas the Radio Shop at INT has found an individual or family who needed assistance in having a better Christmas. It was always easy enough to find people who needed something; but never have we found anyone who deserved our Christmas gift as did the boy we helped this past year.

His name is Sammy Gough. He is 21 years old and lives at 503 East Salem Avenue here in Winston-Salem.

We could not give Sammy what each of us wanted so much to be able to give him, the gift of being able to walk. Sammy has had muscular dystrophy and

multiple sclerosis all of his life. He has always been confined to a wheel chair and has never walked a step. His movements are limited to the use of his hands and arms. His greatest gift would be the ability to do one of a thousand things that most of us take for granted everyday. One would think that a person who has no touch with the outside world, who must always be closely confined, whose every movement is painful, would be exceedingly lonely and bitter. But Sammy is not.

In his words, "When a man has Christ and loves life and people the way I do, he has no

room in his heart for hate and loneliness." Sammy did not have to say this, for it was written in his every expression.

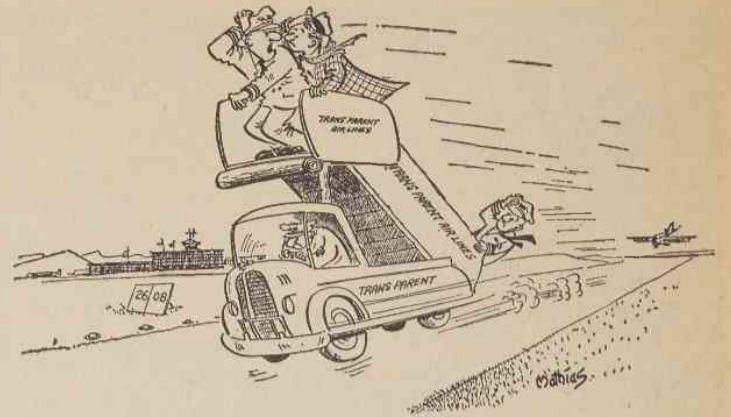

### To Meet People

In order to put himself in contact with more people we found that Sammy had been saving for two years to get a Citizen Bard Two Way Radio. We had no trouble in obtaining help, both financial and otherwise, from the men in the Radio Shop. But a time element was involved. Covering five states, it took over 100 people, two automobiles and three major airlines but Sammy got his Christmas wish.

Sammy started 1966 licensed to talk with over 2.5 million other C-Bers who live in or might travel through North Carolina.

Each of us who came in contact with Sammy last Christmas

TCA Interliner

"Just how much did you promise the driver if you caught this flight?"

received a gift far exceeding that which we gave. We found it indeed refreshing to find a person in this hectic world in which we live, whose smile still carries sunshine, whose words, hope, whose laughter is real and whose "Thank you" is sincere.

# Teletype Tells Christmas Story

When you were at home with your family on Christmas did you think about your co-workers who were still at the office or at the switchboards or pecking away at the teletype machines?

Traditionally the teletype has its own tale to tell of Christmas over the system. Some of our operators must have artistic talents. Lettered pictures appeared between the messages. The following cheerful words are only a few of the actual bits of humor that crossed Piedmont's wires this past Christmas Eve.
