## Museum needs PI models

*Do you have a model of a Piedmont DC-3 just gathering dust on a shelf?*

*The Virginia Museum of Transportation, located in Roanoke, needs your assistance. The museum is opening an exhibit this year relating to the Roanoke Regional Airport which includes a display featuring every type of commercial passenger aircraft ever flown into ROA. The exhibit, which will show commercial aviation's influence on this area through the years, is being designed to appeal to the educational programs for children from throughout Virginia.*

*Piedmont is providing models of our current aircraft for the display, but the museum also needs models of our DC-3, YS-11, Martin 404, and Fairchild F27. If you would like to donate a model to the museum, contact the Public Affairs Department, H440, or call extension 8100.*
