Curb Market Is Breakfast Host

Commissioners of Two Counties and City Officials Guests of Local Mart

Two score friends of the Rocky Mount Curb market, embracing the Mount Curb market, embracing the directions of that organization and, especially invited guests, the Rocky Mount board of aldermen and the county commissioners of Nash and Edgecombe counties were entertain-ed this morning at a rather novel breakfast in the Cobb-Foxhal ware-house at 7:30 o'clock.

The occasion was sponsored by the market with Mrs. Effic Vines Gordon in charge, while the sumptious repast from foodstuffs drawn entirely from the farms of the two counties with the single exceptions of the coffee and the sugar.

Teachers Salaries

The teachers' salary schedule has finally been raised by the State Board of Education 20 per cent, the amount that the legislature intended. It is expected that more money will be required than the amount appropriated, but this can be paid out of the emergency fund. This is nothing but common justice.

Last year it was the desire of the late Attorney General to fix the salary schedule of teachers higher than it was fixed, and in that way the State could have gotten some help from the National Government. In this position he was supported by the auditor, but the Governor and other members of the Council of State took the opposite view, so the salary was fixed at the rate spent last year when it should have been higher.

SEATS NEEDED ON CAPITOL SQUARE

After the enormous amount of relief money and that be longing to the State was spent on the capitol grounds, all of the seats were removed and there was left not a place for the weary travelers to rest, unless he was permitted to sit on the capitol steps.

It has been frequently expressed that it would have been better for the people if this money had not been spent, since the improvements have become so fine that the people could not sit in their own capitol grounds. It is generally expected that probably the next governor

will give some assurance in the campaign that the citizens of the State may be permitted to sit in the capitol grounds

and pass out a few peanuts to the squirrels and pigeons that live in the capitol trees.

Below is a paragraph from the pen of Mr. Duke, Raleigh newspaper correspondent, giving his views on the capitol grounds. It is as follows:

"Let's by all means have a special session of the Legislature-not to rectify any muddles, for that would be impossible, but to repair, if not replace the benches in Capitol Square. I have visited a number of cities and towns, but Raleigh is the only town that I have ever seen with as many as three public parks with not a bench in either. This does not include Pullen Park, this being strictly a money-raising proposition, which has to be considered above the common man's comfort.'

LEROY MARTIN RESIGNS

We notice through the press that Mr. Leroy Martin, executive secretary of the State Board of Equalization and School Commission, has tendered his resignation to the School Commission with the intention of engaging in a private practice of law, and will become counselor for the Trust Department of the Wachovia Bank.

Whoever occupies the White House is continually subjected to whisper-ed rumors as well as open asser-tions of one kind or another. Some, as in this instance, reflect on the health o fthe chief executive. Others, as happened within the last quar-ter of a century, reflected on the personal habits and practices of the President. Still others have related in times past personal fortunes and financial dealings of the man in the White House. Usually these "whis-pering campairs" are of a deroga-tory character. No one ever knows exactly how they start mor is it possible for observers to put a fin-ger on the rumors as they float by. It is a condition that seems to be berd by prominence of the indiv-idual about whom the rumor mon-gare acan operate because people are laways interested in what a president of the United Ctates is doing. In the current instance the "whis-pering campaign" was largely un-known to Washington until summer resort residents began returning to the city. They brought back all sorts of stories that were being cir-culated in distant places concerning Mr. Roosevelt's health. The gossip, for that is what it appears to be, spread like wild-fire in Washington and became of so much concern that it crept into one of the White House press conferences. that he is even more "out in the cold" than the House members. While Mr. Hancock today spoke the sentiments of some other mem-bers of the delegation as well as those of his own, he assumed the full responsibility for what he had to say and his statement is the first while attractance of any Hance mempublic utterance of any House member since the statement of Senator Bailey several weeks ago in which he informed those seeking positions that he had nothing to do with the press conferences. He was just back from a short cruise aboard a yacht in Chesapeake Bay. His face was sun-tanned. He leaned back in his chair and demanded to know what the correspondents thought about it. I think that the news dispatches from Washington that night indi-cated rather clearly what the corre-spondents thought about it. Let People See For Themselves Nevertheless, the rumors centinued to go on, and a good many thou-stand people apparently believed that Mr. Rocsevelt had broken under the strain of his New Deal presidency. So, before the summer is over mil-lions of Americans probably will have an opportunity to see for themselves just as the correspond-ents saw at the press conference that the President still his smile; that his hair is no more gray than when he took office in 1933, and that his countenance shows no carmarks. district positions and that they were solely matters for members of the House. At times there has been some criticism and oftentimes he was compelled to take the lead in explaining the work of the commission. Oftentimes the commission was without funds to supply the real necessities for the running of the school systems; yet it was his object at all times to try to give equality to all the schools and to every child as far as the money permitted.

We wish him every success in his new field, and he leaves the services of the State and School Commission as being one of the most faithful servants the State has ever had.
