SHAMEFUL

It is shameful for one to buy and another to sell corn at 30 cents a bushel which is being done in this county, according to reports.

Because a farmer needs a little ready cash for Christmas and automobile licenses, it is no reason for stripping him of his staff of life and turn him loose to starve.

We need more kind hearts in this country.

THE SIGNIFICANT SUM

The News & Observer

From Washington comes the report of the Department of Agriculture that, while the farm value of all the principal crops grown in the United States totalled \$5,118,444,000 this year as compared with \$4,779,335,000 last year, the value of crops in North Carolina declined 5 per cent.

Certainly here is nothing for North Carolina to be alarmed about. North Carolina farmers, accustomed to the most violent and destructive fluctuations in the prices paid for their crops from year to year under the Old Deal, will be impressed by the moderation of this slight recession.

The significant fact for North Carolina is not the slight decrease this year but the procession of advance from the agricultural prostration under Hoover.

Table with 2 columns: Year, Value. 1932: \$104,326,000; 1933: \$194,390,000; 1934: \$262,973,000; 1935: \$246,348,000

And on the basis of those figures consider what the Roosevelt administration and its AAA has meant to North Carolina since its beginning in 1933.

carts rumbled over North Carolina roads, was \$90,064,000 in 1933, \$158,647,000 in 1934, and \$142,022,000 in 1935.

That is the significant sum, significant not only to farmers but to merchants, automobile dealers, newspapers, bankers, doctors, lawyers, everybody who earns a living in the State.

NEW YEAR'S RESOLUTIONS

Be not ashamed of those New Year's Resolutions you made. They represent the best aspects of your better nature.

PEACE AT ANY PRICE

Wendell Gold Leaf Farmer.

We take second place to none in our hatred of war. Have you seen it at first hand in all its horror in the wreck of the forest of Montfaucon?

We feel that there are and always will be until the world is really civilized and Christianized times when even the most peaceful man or nation must fight.

OUR CONSTITUTION

Wendell Gold Leaf Farmer.

Gladstone, ablest, perhaps, of English jurists, stated that the Constitution of the United States was the greatest document ever produced at a given time by the brain of man.

Guaranteeing as it does the freedom of the press, freedom of speech, and freedom of peaceable assembly, this document is dear to the heart of every true American.

FARM QUESTIONS ANSWERED BY STATE

Question: How much fertilizer should I use on my tobacco plant bed?

Answer: An application of 200 pounds of a 4-8-3 mixture should be applied to each 100 square yards of bed. If a lower grade of fertilizer is used it can be supplemented with from 50 to 100 pounds of cotton seed meal provided the meal is thoroughly mixed with the soil.

es, stalks, or roots.

Question: How can I keep my chickens from picking out their feathers?

Answer: This trouble is caused by a small mite that gets into the skin near the base of the feathers and causes irritation. To get rid of this mite the poultry house should be thoroughly cleaned and sprayed with a solution of three parts of crude petroleum or carbolineum and one and one-half parts of kerosene.

Question: Should the grain ration

of my dairy cows be increased during the winter months?

Answer: This depends upon the quality of hay and the present milk production. Each animal should have about three pounds of silage each day for each 100 pounds of live weight and all the legume hay she will consume in two feedings.
