THE PATRIOTIC THIEF

Tarboro Schools, Theatres, all Public Places had nothing but pleas & solicitations in furtherance of the Second World War Bond & Stamp Drive. A ten Year old kid who we will call Johnnie because that isn't his name, had no money to buy stamps but after some investigation he found a lady that did. He crept into her house & finding a packetbook with 13 dollars in it he carefully removed a 5 spot and left the rest. From there he went to the Post Office and bought \$4.00 worth of War Saving Stamps. 20% of the "take" he kept for his own trouble. Next day he reported to his defense minded teacher the purchase of the war stamps but not his source of purchasing power. Police were suspicious of Johnnie because Johnnie was not the type of boy to own 14¢ much less \$4.00 & the arrest followed. Never fear, an understanding Judge will try Johnnie.
