### A MESSAGE TO THE PEOPLE OF HIGHLANDS

By - Helen H. Coffee

A few weeks ago, having summoned up the courage to decide that it was time for me to report to the doctor for a much-put-off check-up, I began making preparations for an appointment in Sylva where I usually go. Suddenly it occurred to me how impractical it was to be planning an eighty mile trip when we had two doctors right here at home. Consequently that afternoon found me in the waiting room of one of their offices which are located in the Highlands Community Hospital building.

I have always had a sort of dread of doctors, especially of ones I've never been to before. When it came time for me to go in I had the usual queezy feeling in the pit of my stomach--but not for long. The quiet ineffusive manner and kindly interest of this doctor soon put me at my ease, and

### KING'S INN

Attractive King's Inn has added a new dining hall, to take care of its many friends and its guests of both inns, and is stated as having "better food than ever." Also it is in the process of building a swimming pool.

The beautiful new dining room's exterior is of colonial architecture. The dining hall is large enough to seat 150 people at a time, ranging from small tables for two, to larger tables which seat six people. Each table has a pretty flower arrangement on it.

The hemlock paneling, half way up the walls, and the wine figured wallpaper make a pretty picture in itself and carries out the theme of the colonial front

### THE NEW BANK BUILDING

Work has begun on the new Highlands Branch of the Jackson County Bank and will be completed and ready for use in October. Contractor for the new building is W. B. Dillard of Sylva.

The outside walls will be of Roman Brick construction. The interior of the building, covering 1,200 feet of floor space, includes four teller windows, customers' coupon booths, conference rooms, a customers' lounge, and year-round air-conditioning.

### YOUNG GIRL LOST AT DRY FALLS

The last report before press time for this paper (5:30 p.m.) about the young girl, Janis McGivern, 9, lost at Dry Falls since this morning (Wed.) was that a blood hound had failed to bring rescuers to her side although she could still have been in the woods. Sand bags had been placed at the top of the dam and the power house cut off to reduce the flow of water below the falls. so diving could be successfully carried out.

The family, Mr. and Mrs. Paul McGivern and other two children, Linda, 4, and Terry 15 of Cedar Rapids, Iowa, had stopped this morning to view scenic Dry Falls when she disappeared.
