All Over" number this young choreographer, who has been responsible for many innovations in TV dancing in New York, set a new peak for screen choreography. This dance, which was performed on a wharf on the coast of Boothbay Harbor by a dancing chorus of forty, has been rated as the gayest, most colorful and original ever to be shown on the screen. There are two other ballets in "Carousel" in addition to the traditional New England clam bake, which furnishes the setting for the rollicking song, "A Real Nice Clambake."
