This touching story of the life of Lilian Roth is played by Susan Hayward who captures the loneliness and unhappiness that was Miss Roth.

Although some names have been changed and a few romances bypassed, the essence of Miss Roth's story has been kept intact and the simple honesty with which her tale is told is credited to her.

Miss Hayward sings four old favorites in the picture which she does well.

The tragedy of Lilian Roth began when she was a child and her mother literally pushed her onto a stage. Beginning with this, those who see the picture will be thrilled and shocked over and over again because just after they've witnessed a scene in which it appears that the star has attained a climatic pinnacle of superior acting, comes still another to top its predecessors.

A number of Theatre Patrons have asked about this movie and the management is proud to bring it to Highlands.
