

ARK ANTIQUE SHOP OPENS

The Ark Antique Shop is celebrating its tenth anniversary this summer. The shop welcomes all browsers and lovers of fine antiques and gifts. This year there is a large stock of 18th Century English and French furniture and accessories. The complete collection was selected personally.

Among the choice and unique pieces, there is a beautiful sideboard made in England before 1800. There are also antique dining tables, chairs and commodes.

Silver, china, copper and brass from England and France also add to the charm and glamor of the shop.

"The Shed" which is an extension of the main show room is filled with bric-a-brac---anything from a pepper mill to a painting may be discovered here.

To visit the Ark is like going on an armchair visit to Europe. The prize range and choice of articles in which the shop takes great pride, is so varied that one can find something to suit every taste and purse.

On their tenth anniversary the staff of the Ark looks forward to your visit with a warm welcome, and a nostalgic nod to ancient traditions of the countries from which their antiques were chosen.

ROTARY NEWS CONT

gress of the club during the past year--- membership has increased from 12 to 18.

Then Dr. Berry gave an address stressing his objectives for the club during the coming year.
