

STONE LANTERN

HIGHLANDS, NORTH CAROLINA ... TEL. 4910

MARU OKI DORO (ROUND)
(Granite)

18" High.....\$110.00

Stone lanterns from early times have been used by the Japanese as best fitted and consistent with love of elegance and faithfulness to nature for the practical purpose of lighting a garden, boat-landing, or a path over the hillside.

Our stone lanterns are made of the best crystallized granite stone. Each lantern is hand-sculptured by master Japanese craftsmen with backgrounds of generations in this art.

We offer four styles of lanterns ranging in sizes from 18" to 60" in height. All lanterns are provided with wire holes and are easily electrified.

Our **BEPPU IRON LANTERN** is equally at home in the patio and in the garden. It can be hung from the roof or set up upon the terrace to illuminate a path. It is large enough to show up nicely by day, and by night it radiates a warm glow to all.

13" High

8" Square

BEPPU IRON LANTERN

HAVE YOU SEEN OUR DAMASCENE JEWELRY? Bracelets, earrings, cuff links, tie clips, necklaces, money clips, Each piece is a miniature work of art. The technique of Damascus Jewelry originated in the pre-Christian era in Damascus and was brought to Japan about 700 A.D. At present this technique remains in existence only in Kyoto, Japan. The process begins by chiselling fine lines on a steel bast. Then 24 Kt. gold and silver are hammered into the design. After corroding the surface, several layers of lacquer are baked on the entire surface. The design is then polished out with charcoal and set in a bezel which is gold plated.

EARRINGS: \$2.95-\$3.95
CUFF LINKS: \$3.95-\$4.95

BRACELETS: \$11.00-\$15.00
NECKLACES: \$ 3.95-\$ 4.95

This year we have an **ALL PURPOSE FLOWER KIT** which we personally assembled. This kit contains an excellent assortment of high quality tools which you'll find invaluable in making any floral arrangement.

ALL PURPOSE FLOWER KIT
(\$14.95)

(a) The **KIT** is covered with hand-blocked raw silk and lined with velvet. Inside there is a place to secure each of the tools shown.

(b) **TRIMMING SCISSORS:** Made of spring steel. These scissors are perfect for trimming branches.

(c) **KNIFE:** VERY sharp wide blade knife for shaping and splitting end of large branches. Comes with its own protective wood sheath.

(d) **SAW:** Used for cutting branches when too large for shears. Also has its own protective wood sheath

(e) **SHEARS:** Very sharp made from high quality steel. Rattan wrapped handles. Snap-on leather cover for tips.

(f) **PUMP:** For spraying flowers. Comes with attachment for injecting water into fleshy & hollow stems.
