

HOSPITAL EXPANSION REVIEWED

Mrs. A. T. Carter stated Tuesday that architects spent Monday at Highlands-Cashiers Hospital studying the possibilities of the hospital's expansion program. The entire situation is being studied and analyzed by experts on the subject. Mrs. Carter went to Duke on Wednesday of last week to talk the possibilities over with top-notch advisors. At the present time, however, a very large expenditure makes the expansion program look impossible. Commenting on this, Mrs. Carter said, "Something has to give." She continued by stating that many times this summer the hospital has simply not had the room to facilitate all its patients and that the situation at hand had to have a solution.
