Kay Johnson, Clemson University, Clemson, S. C.

**"THE BIBLE AS MODERN SPACECRAFT" From p. 6)**

As we read in this way, we will find ourselves reading expectantly. We will find that there will be a personal message for us daily. The more willing we become to hear, the more we will find God speaking to us.

There are many helps for Bible study. One should have a good commentary, a Bible dictionary, a Bible story book, at least two different translations (one modern English) as well as other things that your clergyman will advise.

You will be utterly amazed at how much your life will change from using the Bible as your rule of faith and life if you are not doing so now. You will find that it is just as modern as spacecraft.
