"NORTH BY NORTHWEST"

Alfred Hitchcock's all-time-great movie thriller, "North By Northwest", starring Cary Grant, Eva Marie Saint and James Mason, has been brought back by public demand. The studio was deluged with requests for the return of this classic suspense-drama, both from Hitchcock fans who had been afforded wonderful entertainment at its first showings and from those who had never seen this spine-tingling drama of a man running for his life before.

The fantastic climax of the film alone makes this a picture which moviegoers will want to see more than once. Shot on a location which only the unique imagination of a Hitchcock could conceive for a film plot, it was filmed at the national monument at Mt. Rushmore in South Dakota, with Cary Grant fighting for his life in a chase and gun battle that takes place against the stone-carved faces of Presidents Lincoln, Washington, Jefferson and Theodore Roosevelt. There has never been anything like it in a motion picture before--or after!

"North By Northwest" plays Saturday, July 1st at the GALAX THEATRE. DON'T MISS IT!
