"BROTHER JOHN"

Sidney Poitier, in this allegorical melodrama, plays a mysterious world-traveler who is revealed at the end to be an emissary of the Creator himself sent to pass judgment on the sinners on earth. Until that startling revelation, "Brother John" plays like a kind of mystery movie in which everyone in the small Alamaman town in which Poitier was born and to which he has returned tries to fathom his baffling behavior and motives. Will Beer is good as the old doctor who eventually discovers the true identity of Poitier. Audiences taking the film as a detective thriller - which it is possible to do most of the way - may find the super-natural denouement a letdown. A competent cast includes Beverly Todd, Ramon Bieri and Bradford Dillman. "BROTHER JOHN" will play Fri-Sat July 23-24 at the Galax Theatre.

FIRE DEPARTMENT HISTORY TOLD ROTARIANS

occasions Highlands has helped out at fires in Cashiers, and the Sylva department has assisted us at times, even loaning us a truck when ours was being repaired. No financial assistance has been received from the Macon County Commissioners.

To solve the problem caused by lack of phone coverage at the police headquarters at certain times during the night and on weekends it is hoped that facilities of the seven county law enforcement communications network with a 24 hour station at the Highlands-Cashiers Hospital will be available. It is thought that

the new system will be in operation in the very near future.

In answer to questions from the floor, Commissioner Houston stated that all members of the Department attend state sponsored school at Brevard at least once a year, where a wide variety of courses are offered three hours per night on four consecutive nights. This school is sponsored and paid for by the State Department of Insurance.

The Highlands Fire Department is recognized as being one of the very best in the entire State and possibly in the entire country. All members are dedicated to their task and it is quite an honor to be a part of the Department. Members are elected on the basis of their ability and proximity to the fire station.

Due to the fact that Rotary is having two barbeques this summer for the benefit of the recreation center the fire department will have only an open house during the last week in August at which time citizens will have an opportunity to inspect the equipment and facilities and the children will be given rides on the fire truck as in past years.

It was announced that Highlands ranked Number 1 in the entire District in attendance for the month of June for the first time in history. Dick Harrison presented the traditional hand made walking stick to Commissioner Houston at the close of the meeting.
