AGO, WE WANT TO SELL TO FINANCE AN ENTIRELY DIFFERENT
PROJECT. ANYONE INTERESTED
IN A SUBSTANTIAL MOUNTAIN
HOME AT ABOUT 60% PROBABLE
REPLACEMENT COST, PLEASE
PHONE 526-2031 FOR APPOINTMENT.

"IN COLD BLOOD"

Few, if any, crimes in modern times have been subjected to so much meticulous research from every possible angle - historical, sociological, philosophical and psychological as those of the murders late in 1959 of four members of the Clutter family in their farm home near Holcomb, Kansas. The one who undertook the prodigious job of scolarship was Truman Capote, who then proceeded to record his findings in his book "In Cold Blood." Now writer-director Richard Brooks has transferred it to the screen in a film that is equally praiseworthy. It is Brooks' personal masterpiece and one of the most brilliant pictures of the past decade.

The film falls naturally into three sections: the plotting, the crime by the killers and relevant events leading up to it: the flight of the criminals afterwards and the marshalling of the forces of the law to find them: and their capture and final execution. All three parts are notable not only for the suspense created in the manner of a thriller but for the details of characterization and millieu."In Cold Blood" plays Tuesday, July 27.
