## "FUNNY GIRL"

"Funny Girl," starring Academy Award winner Barbra Streisand and Omar Sharif in Panavision and Technicolor is a motion picture with a built-in reputation for successful entertainment. A William Wyler-Ray Stark production based on the spectacular Broadway and London stage success, "Funny Girl" is now in general release at the Galax Theatre. It ran for well over a year in reserved seat engagements on Broadway and elsewhere.

The people involved in making "Funny Girl" are among the world's most illustrious at their crafts.

Miss Streisand, for example, not only is America's most heralded young singer-actress, she also is the girl whose television "specials" made ratings history and whose records sell in the millions. Her performance in "Funny Girl", her debut film, won her the Oscar as Best Actress of the Year.

Omar Sharif, who plays Nick Arnstein, playboy-gambler, who weds Miss Streisand as Ziegfield Follies comedienne, Fanny Bryce, is the internationally-famous romantic figure of "Lawrence of Arabia," "Dr. Zhivago" and "Mackenna's Gold."

"Funny Girl" plays  
Tuesday, August 3rd at the Galax Theatre.

## BABY CONTEST GOING STRONG

Burton Talbott of Burdick Galleries reports that the Baby Contest is going well. He reports that he has photographed about 30 children and he says that out of 850,000 children he has photographed in 30 years that there are more pretty babies in Highlands than anywhere else he has been.

Watch as you past the Highlander Restaurant this weekend. Baby pictures will be arranged in the window and an honored guest will be seated nearby. She will be "the Mother of the Day".

Mothers who want to enter their children in the contest see Mr. Talbott.
