open this weekend as the "Purple Onion". The purple onion is a combination of Deli and Gourmet foods with its slogan 'established for people who appreciate quality'. The store will feature unique food items both for entertaining and snacks, along with specialty frozen foods, cheese items, refrigerated soups, and many other wonderful taste treats. The decor of the store is most unusual and shows evidence of what a little imagination can do. It has turned an old weather beaten building into an interesting asset to the colorful town of Cashiers.
