## Arnold Paintings Shown In Florida

The works of Russell Arnold, a member of the Atlantic Christian College faculty in the Art Department, are included in a show of fifteen young Southeastern painters being held at the University of Florida.

The show opened April 15 and will close in May. The Department of Art of the College of Architecture and Allied Arts of the University of Florida is sponsoring the show. It is being held in the University Student Service Center.

In its printed program officials of the show said: "The purpose of this exhibition is to call attention to the quality of painting that is being done by young artists of the Southeastern area." "The fifteen artists represented in this exhibition were selected by a faculty committee from a large group of young painters recommended by some of the southeast's most prominent experts in the field of art."

The paintings by Mr. Arnold are abstract works in oils. He has been a member of the ACC faculty for three years. A graduate of ACC, he has also studied at the Art Students League of New York and received the Master's degree in art from the University of North Carolina.
