

SCA Snoozeletter

By PIGGY LOUSE

Many exciting things have been happening to our cabinet members during these last two weeks. We are sorry to loose poor Russell. He suddenly decided to join the foreign legion. At present he is on active duty in the Mohabi desert, watering camels. Stop by to visit Sharon sometime while she is convalescing in the infirmary. Unfortunately she fell down the trash shoot in the girls' dorm while emptying the sand from her shoes from her recent Florida trip. She only received minor bruises when she landed, sitting down, on the ground floor.

Congratulations to our president, Helen Nicholson, on her recent marriage. We think you picked a mighty fine gal, Mr. Harris.

The SCA is sponsoring a picnic next week and everyone is invited. We will have plenty of food, games, swimming and fun. Everyone is guaranteed a good time, so come on out. It will be held in Yellowstone National Park, Friday, April 12. If you have a car or plane you can provide transportation, see Art Beshot, who is in charge of transportation. Remember, this picnic is free, except for transportation.

Those who attended the last SCA meeting were very fortunate in hearing Bertrand Russell, from England, tell us about his views of Neo-Orthodoxy. Everyone enjoyed it.

Well, this is about all for now. Don't forget the picnic. See you then.

New Men's Dorm To Be Built Soon

A recent news release from Detroit, Michigan, said that the construction firm of F. L. Wright & Co. has signed a contract with Atlantic Christian College for the construction of a new men's dormitory.

F. L. Wright, president of the company and also an architect of some note, has designed the building. Mr. Wright has had a very successful career in architecture having come under the influence of the work of Russell Barnold.

The building plan calls for four floors, only one of which will be above the ground. The other three will be on subterranean levels so that the building will have a ranch-style effect. This is in keeping with the trend at ACC of having all buildings different.

Construction will probably start within the next week and should be completed sometime in August. A revolutionary construction system will be used in which all floor levels will be built simultaneously at the ground level and then the bottom three will be lowered to the desired level. This is the first time this type construction will have been used in N. C.

The top floor, (the only one open to the general public) will consist of a magnificent lounge, ultra-modern rooms, and the very best in fixtures and furnishings. This floor will house the dean of men, two housemothers, three faculty members with their families, and all senior men with a quality point average of exactly 2.73.

The other three floors will house the majority of men students on campus and will consist of 231 rooms each four feet by seven. There will be three boys in each room. Each room will have one desk and will be limited to one light. There will be no doors but rather each room will have six steel bars guarding the entrance.

There will be a bed check every night and lights must be out by ten o'clock. The house mothers will patrol the halls to make sure that everything is going smoothly.

New Library Service Planned

The staff of the library has been busy during the past few days working on a plan to meet the demands of a certain small, but important group of our students. The problem, stated concisely, has been this — "How to provide a better and more challenging situation for studious Christian readers to acquire non-circulating reference books; parts of non-circulating reference books; single issues of Popular Science and other periodicals, and adequate copies of puzzle; and basketball scores in

Intermurals

The intermural program is progressing nicely these days as Seemy Hho About continues to pike up a big point lead. The "Seemes" have recently captured first place in the Uddlywinks contest. Fry Kappy came in second in a stirring contest with the "Seemes".

All of the boys are practicing now for the next event, the marble championship. Ismelta Hama was favored to repeat as winners in this contest, but several of the boys have lost their marbles and will not compete. Seemy Outhouse will probably come busting into the winner's circle.

Caldron-Bray Students have withdrawn from future competition when their star dropped out of school. He lives on the third floor of Caldron Hall and when he dropped out he broke his neck, which renders him unable to participate in future contests.

Ken Louse, Tony Taker, John Moshinas, and Max Gargle have been outstanding for the "Seemes" this season. These boys really have what it takes; namely, money. They have been bribing the referees all year.

Other outstanding athletes (they have the feet to show it) have been Clawd Mochum, and Phil Marlboro for Fry Kappy; Billy Smeairit from Ismelta Hama; and George Swooloby and Frankly I. Peel, from Seemy Outhouse.

Well, that about winds it up for the intermurals this week. Everybody be sure to come out for the marble championship, which will be held in the lobby of the administration building.

Students Reveal Summer Plans

ACC will be well represented this summer in various parts of the United States and Russia, according to answers from a recent questionnaire given to the students. In answering the question, "What are you going to do this summer?" there were many interesting replies.

Several of our healthy young men are going on an expedition to South America. They plan to join a revolutionary army and put Peron back into power in Argentina. These include Art Bishop, John Marley, Woody Hill, Joe Hardegree, Bill Boswell, Zoda Phipps, Littlejohn Faulkner, and Calvin Nugent. Gene Barnes and Dr. Cutlip plan to go along as sponsors for this expedition.

"We believe in the rights of dictators," said Woody Hill, spokesman for the group. Further comment came from Arthur Bishop who said, "Being from Philadelphia, I believe in brotherly love. Since Peron is a distant cousin of my half-brother, I feel it my duty to rescue him from those rabble-rousing democrats."

John Marley is to have no part in the actual fighting but is going along as chaplain for the group. He will be assisted by Calvin Nugent. Calvin is from ECC.

Another interesting trip will be taken by Mr. & Mrs. Billy Tomlinson, Mr. & Mrs. Bobby Bennett, Mr. and Mrs. Kenneth Rouse, and Mr. & Mrs. David Batts. This group is going to the Holy Land under the leadership of Dr. & Mrs. Vere Rogers. There is a sort of scientific expedition seeking to prove that the Dead Sea is not really dead. They will also drill for oil on the Gaza strip.

A number of professors will be taking graduate work this summer. This group includes Mr. Robert Capps, who is working on his Ph.D. at Campbell College; Mr. Harry Swain, who is working on his B.D. from U.N.C.; and Mr. Jack Scudder, who is working on his diploma from Charles L. Coon high school. The Collegiate wishes all kinds of good luck and success to these men in their worthy endeavors.

David Backwoods is going on a work camp tour to Siberia. His trip is being sponsored by the Young Communists League at ACC. David has been looking forward to this trip ever since he was caught (by the League) breaking into Young Communist League Headquarters, in the basement of the Sigma Rho Phi house.

A number of girls are planning to work as showgirls in the Las Vegas Hotel, "Dirt." This is a new hotel located across the street from "The Sands." This group includes Beverly Edwards, Ted Hubert, Sylvia Allbrook, Annette Barefoot, Sue Willoughby, Kack Butt, Ellen Dennis, and Miss Ward. Ted really is not a girl but he lied about his age and got the job.

As a publicity stunt several ACC students plan to walk on their hands from Wilson to Phoenix, Arizona. The winner of this contest has been offered three dozen pair of artificial arms by the National Association of People Who Have Lost Their Hands and Arms Walking From Wilson, N. C., to Phoenix, Arizona. Dr. C. H. Hamlin, president of the NAPWHLTHAWFWNCTPA, announced this award. Entries so far include Carl Weaver, Carol Austin, Joan Rivenbark, Dick Tyson, Max Barber, and Bobby Dunn. If any further students wish to join this group contact Dean Morrow, who is acting as sponsor for the trip.

the daily and Sunday papers."

We realize that the present arrangement is hardly conducive to keen competitive sport, but owing to budgetary and staff limitations we have been restricted in providing direct "referee" technique in the reference room. Many college libraries are able to provide this particular service but the pattern in church supported institutions has not kept up with the times.

Our plan, which we hope to put in practice in the near future, envisions a complex and exciting exercise designed to give students an opportunity to test their powers in the worldly arts of theft and

destruction while, at the same time, preserving the expensive and irreplaceable reference tools of the College. Roughly stated, a collection of books would be secreted in some out-of-the-way place (say, behind the dripping steam transfer valve in the basement) and the full staff of the library would be alerted to keep an eye on it as they go about their daily routines. The "hunters" therefore would have to be on particular guard lest they be observed by one of the "catchers."
