Let's Get Started Right

Summer is gone. We are back at college. But are we really prepared for what is ahead?

We hope we will not hear that frayed old statement: "Well it's just like it was last year, etc. etc."

This is definitely not like it was last year. Have you looked around you? ACC has the largest enrollment in the snmmer vacation, was personits history. New faculty members have joined our family alizing towels with your own footto help us in our search for knowledge. Don't forget this is the real reason we are here — knowledge.

But there are other things. Our new buildings provide been "unglued."

an atmosphere that makes us all proud to be a part of the

growing ACC family.

Our schedule ahead shows that we are starting on the

greatest year in the history of ACC.

Homecoming — that happy weekend in November that tires us out with enjoyment — is just ahead. The committee is planning the biggest ever. We need to have plenty of volunteer workers and not helpers — those kind mer, and fall predicts more hats. like it, and it accents your femithat help from the Bohunk - on this project.

Basketball — We have the biggest and best schedule that anyone at ACC can remember. Let's get right on the spirit theme right now. The boys will need all the help white, Bulldogs!! they can get on December 2, when we go to Raleigh to beat State.

Dramatics — We have a play coming up. Let's hope Mrs. Holsworth doesn't have to look in every nook and cranny to find actors. Volunteer. And remember, if you can't volunteer be sitting in the many seats provided in Howard Chapel on the night the production is presented.

Student Government — The Executive Board should not be required to do all our decision making for us. Attend Exec. Board meetings. When it's ballot time, vote. It's

your government, help run it.

Classes — we gave knowledge the top place in this writing because it is the real reason we are here. You can't get knowledge if you don't go to class. Cuts are for emergencies and late sleeping is definitely not an emergency.

Social Events — We don't have them because the tober 14.

committees like to do extra work. They are a part of our The dinner probably will be held overall campus experience. In the game of life, it's just like missing a class. Attend the receptions, the dances, the fraternity and sorority parties. If you don't, someday you will wish you had.

Chapel — You won't know whether we had a good program or a bad one if you don't attend. Most of them are top flight and worth the time you give to them. Make the company of wilson. It is not the program of the drive is Thomas J. Hackney, Jr., president of the Hackney Body Company of Wilson. it a point this year to attend the assemblies and chapel services. Is your time really so important that you can't spend some of it getting a little more culture? And remember, please cut down on the noise when you go in.

We believe all these things are necessary to build a driving spirit in our student body. And that's what we all

get started right.

THE EDITORS.

#### New Advising Plan

We feel that most students were pleased with the new advising plan that went into effect October 1. A lot new advising plan that went into effect October 1. A lot to make A.C.C the very best, we column — your real chance to of complaints have been heard in the past about students all know that there are improve- "sound-off" and tell us what's on who could never find their advisors and also from advisors who could not find their students.

A plan of such magnitude deserves some attention ments. If something on campus is bothering you, why not write and you; don't pull your punches. What tell us about it and we will in is YOUR pet gripe? from The Collegiate so we hiked over to the Dean's Office

to discuss the plan further.

The system is being started to give students a better opportunity to receive guidance concerning their work during the present semester and also advice for making plans for courses during the spring semester.

However, the new system will not abolish individual visits to see the advisor. It was felt that more sessions are

needed rather than less.

The ediotrs hope that the new program will give students more of an indication of what lies ahead. It is too late to be interested after the F on a course has gone into the grade book.

#### Rush Week

We would like to commend the Pan-Hellenic Council for its plan for Rush Week and the procedure for issuing bids to prospective members of fraternities and sororities.

For the first time, we believe we have a program that will work for the benefit of all Greek letter organizations

on the campus.

We hope our front page story carries sufficient information so that all students will know what is taking place during Rush Week.

On the percentage schedule for issuing bids, we are good.

## Meditation

"You are fast becoming what you are going to be." With our particular modes of living more is needed beside real estate, bank accounts and insurance. We need a sane spiritual foundation upon which to tread in an environment of bright temptations and dark righteousness. We need to strengthen ourselves in faith to strengthen ourselves in character, in personality and thus in popularity with God and man. We need to learn facts, theories, language, music, art, drama, ourselves and Christ. Life necessitates the love of Jesus, and no life is complete without the possession and application of knowledge of God. This is a new school year, full of opportunity and challenge for every student. Another year to mold a foundation for what we shall soon become has arrived, soon to pass away. Stop, look and listen; go, sell, give, come, follow. Think of the necessities of successful living as it becomes factual that "you are fast becoming what you are going to be."

The campaign is being conducted to put Atlantic Christian College in a position for future

# My Pet Gripe

By JIM BISHOP

Think back over the earlier part turn print it in this column. If See if you can join with us in creating this spirit. Let's of today; or you may even have to turn your thoughts to yesterday. turn your thoughts to yesterday. this problem, give us that, too. However, I am sure it has not However, the latter is not essenbeen more than twenty-four hours tial since what we really want since you have uttered, "Doesn't for publication are your gripes or that get you!" or, as I would say pet peeves. Our endeavor will be it, "Boy, that gripes me!"
Even though everyone is trying

ment to be made. Hence, we thought you, the readers, could

to solve them.

Here it is, gant, this is your your mind. These gripes need not be signed; just address them to:

pleased that the Council saw fit to attempt to help all fraternities and sororities realize an equal potential for membership.

Our fraternity and sorority program can only be as strong as its weakest link. By building up some organizations and letting others slide we feel that the entire program could be hurt.

Let's hope that all groups will be able to reach their

hoped for potential in this project.

To students we can only say this: that the future of any Greek letter organization depends as much on its new members as old ones. We hope that each student who receives a bid will pledge himself, not only to become a member of an organization, but also pledge himself to do as much for that organization as he can. For some of us meeting to order. this will mean leadership responsibilities. If we can carry out our leadership and membership responsibilities to the best of our ability we will have a growing Greek letter program on our campus.

And that is what we want. If we are to have fraternities and sororities we want them all to be strong and successful. Anything below this maximum effort is not

## New Books At The Library

By WALTER GRAY College Librarian

With the beginning of a new school year it seems pertinent to devote this space to a description of just what this column is all about and what it hopes to accomplish.

Last year we started off by listing the oustanding new books which were acquired by the college library (with a little horseplay thrown in on the side.) The question immediately arose as to what was meant by a "new book." Our thinking went something like this: a new book is any book to which our readers have not pre-viously had access. We feel that this is a good definition and hope to continue with it.

Space does not permit a review of the books which we think that a brief comment now and then may

stimulate your native curiosity.
We hope too that the listing of new reference books occasionally may keep the faculty informed as to what is available in their various

of course, we Hardians like to have a bit of fun too and we like to share it. If some days we seem a little wacky, we hope that you will join in. Books do have strange effects on people Come in and see effects on people. Come in and see us and find out for yourselves.

# **Student Takes Marine Course**

Thad Prevatte, a senior at Atlantic Christian College, will enter the Marine Corps, upon his grad-uation at ACC, as a second Lieu-tenant. During his Junior year at ACC, Thad joined the Platoon Leaders Class, which is designed by the Marine Corps for college students desiring to become an officer. After several examinations, physical and aptitude, he was accepted and sworn in by the Marine Corps in order that he might train and receive his commission at the time of graduation from

During the past summer, Thad was sent to Quantico, Virginia, to the Marine Corps Schools Training and Test Regiment for 12 weeks of training. This he completed successfully and he awaits now grad-

Thad selected, after having passed rigid mental and physical examinations, the aviation branch of the corps. He will be sent back to Quantico, Virginia, upon grad-uation, to take various flight physicals for approximately two weeks before being given first duty at Pensacola, Florida, for eighteen months of flight training. He then serves in active duty for two years in the Marine Corps thereafter.

## Bennett Heads Pan-Hel Council

Joe Bennett, a member of Phi Kappa Alpha Fraternity, was recently elected president of the Pan-Hellenic Council at ACC.

Other officers elected were Sallie Joe Griffin, Phi Sigma Tau Sorority, vice- president; Marjorie Trott, Phi Sigma Tau, secretary; Carl Weaver, Phi Delta Gamma, treasurer; Mr. Robert O. Morrow, Dean of Men, and Miss Sarah Ba Ward, Dean of Women, faculty advisors, and Dr. R. B. Cutlip, Dean of the College, representative from the administration.

## **Business Group** Holds First Meet

The Business Club held its first meeting of the year on Thursday, September 21, at 3:40. Littlejohn

The purpose of the meeting was to elect a secretary, treasurer, and reporter. Those elected were Nancy Jones Davis, secretary; Cleo West, treasurer; Barbara Felton, reporter.

It was decided that the Business Club would hold its regular meeting on the first Thursday of each month at 4:00.
