Bennett students may soon be given the opportunity to participate in health-related programs offered at a university in Egypt.

Dr. Dalal K. Eshra, dean of High Institute of Nursing at Menoufiya University in Menoufiya, Egypt, visited Bennett from Feb. 3- April 10.

During her visit, Eshra and Dr. Janice Brewington, director of the Center for Women and Health

at the Bennett College Women's Leadership Institute, worked on a report about their 15-month health project "Primary Health Care Outreach Program Linking University with the Community."

Brewington and Eshra's research focuses on Menoufiya University's facilitated clinics which offers health programs such as prenatal care, child health care, and health education to the 150 families participating in the research project in El-Dabiba and Manshia Sultan. The two villages are located near Menoufiya Uni-

versity.

Eshra said she is interested in an exchange program between Bennett and Menoufiya University.

"I look forward to future collaborations with Bennett College students, especially in areas of women's health," Eshra said.

Brewington and Eshra are also preparing to take part in a health seminar which will take place in Egypt in April.

An informal reception was held in honor of Eshra Feb. 9 in the lobby of the student union.
