## Just a Thought

(By W. B. Underwood)

Several years ago we all applied ourselves to our work with no thought given to our own welfare, but through the years we have begun to think more on terms of our future health and happiness. Let us stop and think what we must do in order to be well and happy in the future. If, through some carelessness on our part, we might prevent this happiness, wouldn't we think twice before plunging headlong into some of the things we do?

Why not start now to preserve our health. No one wants to be a cripple for life and be dependent on someone else for their support.

It is our understanding that during the month of July Chatham Mills are putting on a "No Accident Campaign." Let's make this a perfect month and see what a pleasant sensation it will be for both yourself and your fellow workman. After this short length of time, you will see how easy it is to prevent injury. Do you know that when you are careless, it not only makes you liable to injury, but puts every one around you in the same boat.

Let's see what we must do in order to keep out of an accident. First of all, just use your head and be careful; this is the basic thing for all of us to do.

Second, we must not let this one idea leave us when we leave our work, but must carry it into our homes, and everywhere we go.

Do you realize that a strong healthy body and mind are our earning power? Why not make a resolution that will start in our own home in carrying out this safety idea. Get that home in

spic and span condition, both in the house and in the yard, so that we feel proud of it, and are not ashamed for anyone to come into it. Then let's keep our own selves clean and healthful. Why not buy things that will help to build up your health and not throw it away on frivolous things, which in fact, tend to tear down that healthful, pleasant feeling?

After we do these things, you will be surprised at the different attitude you will have toward your work. You will really enjoy it, and that grouchy feeling will disappear.

Now, if everyone will do these small things, we will all benefit; we will see nothing but smiles and pleasantness about us, and best of all, accidents will be a thing of the past, and, oh, how happy we will all be.

Let's everyone pull together and show our appreciation to Chatham Mills that we are with them. Keep smiling, and above all, be careful. You yourself will see the results.

mad yesterday. No, we didn't wait to see what he got mad about.

Notice: Anyone having any cows they wish hauled will please see Web Hayes.

Ruby, daughter of Mr. and Mrs. John Barker, was painfully tho not seriously injured Sunday evening when struck by an automobile driven by Noah Chappell, of Boonville.

## WEAVING DEPARTMENT

Sunday was a very warm day in Elkin. We just can't understand how John Holcomb walked across the hot street without burning his feet. How about it John?
