SHOP

Mr. J. W. L. Benson and family returned from vacationing in New York City and other northern cities, last Friday. We are sure that they had a splendid trip, having spent the week mak-

ing the trip. Being of an analytical mind, in some things especially, we were just wondering if Mr. Benson could tell us just what the average evaporation per delegate at the Democratic Convention would amount to.

Healing Springs had a visitor from Mr. Benson's office last week in the person of Lee Neaves, who was visiting his father at their home near there.

One of the boys from up in the shop was telling me about the efforts of one Jim Lyons, in an attempt to raise pheasants, on his farm on the outskirts of Elkin. We are not sure that we understand all that this fellow told us about Jim and the pheasants, so we are not going to say anything about it this time. If Jim will be kind enough to give us the details on pheasant raising we will be glad to write them up for the benefit of the 4½ readers of this item.

Bright spot around the shop: Curtis Couch's smile since they put him on night time.

The opposite: When we told Jim Lyons that we didn't have four belts glued for him; that he didn't use for three days after.

Jimmy Booher of Mr. Benson's office spent a few days recently visiting his home folks back in Tennessee.

Add simile: As busy as Leff Cothren checking up.

Mrs. Jimmie Booher returned last week from an extended visit with relatives in Bristol Va.-Tenn.

We have had quite a few visitors here of late down at the Power Plant. Just last week one of our friends from over at Healing Springs dropped in on us for a pleasant visit.
