DYE HOUSE

With a weeks splendid vacation at Myrtle Beach at an end we find Sam Atkinson back on the job, with new vim, vigor and vitality (excuse us Pop Eye). It comes in mighty handy too with all that moving and straighten-

ing up to do in occupying the new Dye House Lab, which by the way is just about occupied.

You have no doubt heard the story of the "Bull in the China Shop," but we will lay you two to one that you haven't heard the story of the "Bull in Mr. Alex Chatham's Pasture." Especially the one that ran one of the Dye House boys up a tree, and kept him there all afternoon, till after dark, or at least that is the story this boy told his wife when he arrived home way after his usual time of arrival. But they tell us that the bull did actually keep the poor fellow up the tree until it looked as though "tree sitting" had come back into style again. For further details on this story you will have to ask Mr. Carrico, he can tell you about it first hand, he was there when it happened.
