

HERE and THERE

Endless Belt Department

Reporter: M. S. Thorne

Frankie Whitmire boasts that he doesn't really need any practice to beat the girls in Endless bowling, so we take it for granted that he is doing all the fancy practicing merely to improve his form.

We wonder if Mary Lou Shytle can will a rush order for maroon lipstick for Katherine Case—and-er something grey with that would blend nicely with the car, Katherine.

Judging from seeing him here and there one would get the impression that Ed Rathbauer isn't exactly on the floating shift these nights.

There are recent reports of two very happy brides in the Endless Belt Corporation.

Elsie Beatrice Woodward of Rosman was married to William Henry Holliday of Brevard in Greenville on March 12th.

Mr. Holliday is employed in the Refining Beater room of Ecusta.

Mr. and Mrs. Holliday are occupying an apartment at Enon.

The marriage of Lois Vonala Ashe and Benjamin Martin Rickman of Hendersonville which took place on February 15, was announced last week.

The groom is employed in the electrical department of Ecusta Paper Co.

The young couple is residing in the Felder Home in Hendersonville.

It is nice to see Annie Mae McCall back in Endless after an illness of two weeks.

Jack Davies, foreman of the Ironing department in Endless Belt, has been confined to his home for sometime on account of a bad knee. He underwent an operation on his knee at Biltmore hospital in Asheville last week. It is reported that he is convalescing nicely at his home in Hendersonville.

Grace Hamilton, of Endless Belt, is in the Greenville City hospital undergoing treatment. Her friends wish for her a rapid recovery.

It has been necessary for Mrs. Oscar Harbin to give up her work in Endless Belt temporarily on account of her health. It is hoped that she will be able to return to her work within a few weeks.

We will be happy to welcome Jack Davies on his return from Mission hospital where he recently underwent a minor operation for his knee. Could he that his son Zachary, was getting too heavy to bounce on daddy's knee!

The boys in the Ironing Department paid Jack Davies a visit one night last week. Headed by Gabby Flanagan, Odell Scott, Bud Case and Alvin Blythe. Mrs. Davies served refreshments during the evening and the boys serenaded Jack with a piano, accordian and guitar as played by Mr. Scott and Mr. Blythe.

That was no speedboat in the Davidson River a few weeks ago. The Flanagan's were only washing their car in the middle of the river.

Gumming Department

Reporter: Oscar L. Keating

Asked of Gumming Machine Operator—Have you any gummed bobbins?
 Ans.—No but we have gum drops on the floor.

Ecusta rolls are not good with butter but very good if gummed.

Ecusta rolls are made from flax, not wheat flour.

Bill Erwin thought NACL was a railroad, what do you think?

Jesse Owen should marry a gumming machine. It has pulled his hair and mashed his finger and toe and is hot enough to cook.

Believe It Or Not—

Clark Grissom of the Gumming Department punched his time card out on Friday, March 29th at 4:03, terminating

- 3 years
- 3 months
- 3 weeks
- 3 days
- 3 hours
- 3 minutes
- of married life.

Operator—Was the foreman nervous when he drove his new car?
 No, but the road was very jittery.

MACHINE ROOM
Shift "D"

Reporter: John Goolsby

On Friday, March 15, 1940, Clyde Shuford, Back Tender on No. 3 machine, and Miss Frances Edens of Rosman, joined the ranks of the married. We all wish you and the wife happiness and prosperity, and remember, no sea, no matter how wide, or deep, but what has its storms and tempests, and the sea of matrimony is no exception—and it takes a good skipper to ride 'em out.

It looks as if we might have some future golf champions in our organization. A few days past, a party of six who yearned for excitement decided to try a few holes of golf. Ray Sterling and I were playing "holding the bag," it seems. Messrs. L. B. Owen, Machine Tender on No. 2, and Red Woods were sure up to par. Bill Raines and Lyda were shooting above the average, and Roy Wolfe, so he tells me, was playing according to the law of average. Frank Curtis destroyed his score card. If interest keeps up, a club will be formed this spring.

We have had lots of mild sickness on our shift lately. One of the ailing was Skipper Suter who was on the job piloting us through the storms when he should have been in bed.

Galloway, Machine 3, looked so weak he could hardly stand up. "Shorty" Hargis offered him a transfusion but he declined. Kingdoms are built on spirits like this.

They say the cleverest man makes the worst husbands. (Don't you believe it. The cleverest men never make husbands.)

Leo Jacobs, No. 1 Machine, has returned from a trip back home in La. where he spent several days visiting loved ones and friends. He said that he had a very fine trip and really enjoyed his short vacation in his home town.

Spencer Macfie is a recent addition to our shift. We are all glad to have Macfie working with us and will do everything we can to help him learn the paper making trade.

When all the men on the team get the habit of putting their heads together and talking over the problems, the chances of solving these problems are highly favorable.

Champagne

Reporters: Harry Rathje, Louis Mosca, Thomas New, Richard Lan-deck, Dorothy McCrary, Ruby Rogers, Lillian King, Sara Hedden.

Glad to welcome back to our department Louise Owen, Dot Allison, Juanice Hall and Mary Carolyn McIntosh. A special welcome goes to Kathleen Teague, a newcomer from the Hand Booklet Department.

James Avery and Weilt Duckworth from M.B.D. find points of interest in Asheville every week-end — shopping, etc.

All girls looking for new hair-do's need not bother about seeing the latest beauty culture magazine. Get in touch with Mary Allison. She's got just what you're looking for.

Tickets! Tickets! Right this way folks. Ah, here comes Harold Erwin. Of course he wants one. Now don't lose it, Harold. They're expensive—sixteen dollars and thirty-one cents to be exact.

The girls of M.B. miss Paul Young's courtesy and patience since he is working on night shift this week.

Confucius say little girlie who eats many chocolates every day grow big and fat. Beware Bertie Haehnel and Mickey Tinsley.

Maybe some are wondering why all the girls in M.B. are wearing such stunning new blue dresses around town. Well, Harry Golderer's new car is blue, isn't it?

Clara Barnett looks forward to the day when she can cut Blue Tip Top without seeing spots before her eyes. Take a hint, ye printers.

To Lucy White we extend our deepest sympathy and hope to have her back soon.

Fritz Haehnel of the Printing Department makes the grandest noodle soup for his lunch. How about asking us over for some lunch sometime, Fritz?

That was some fish story, Harry Rathje. Who ever heard of fishing with a rake. Anyway we must give you credit for originality.

Buck McCall is our favorite cop. He can say, "You can't do that" in the most respectful manner and mean it.

The stretch of road leading into the plant has been nicknamed, "Skyline Drive" by some of the boys from Hendersonville. The reason is simple. One makes a line drive for the sky riding over some of the bumps and holes.

Congratulations to "Pappy" Joe Galloway and his better half. The Blessed Event being a 10 pound baby boy on March 20th.

Sam Barnett's head swelled so much since he has been married his hat stuck to his head one day last week. What a picture it would have been to see Mrs. Barnett cutting it loose from his hair with a razor blade. Wonder if they bought that pair of scissors Sam said he was going to make the missus buy.

Helen and Altha McCall were seen riding Sunday evening in an A Model roadster. Who's the boy friend?

Have you seen Dona Wright and Ruby Allison anywhere but together? You would think they were having a laughing contest.

The girls in the Hand Booklet Department would get along better if they would use more gum on the paper and less chewing gum.

We wonder why Luke Harrison is always hanging around the doctor's office. Is he sick, or is it the nurse he's interested in?

We have heard, but don't tell anybody that Porky Erwin has been seen quite a bit in Asheville lately.

Weddings of int

It was of interest to learn that in spite of a few at the Episcopal church in Mr. William Kirk of the Pr oratory and Miss Katherine managed to middle-aisle-it 23rd.

Immediately following the Bill and Katherine sped to where they spent an enjoy moon.

Both of these employees with the company for some everyone joins in wishing happiness.

Congratulations also to in charge of the Ecusta who was married on Friday Miss Helen Carrier of Brevard wedding took place at the Episcopal church. After the a reception was given at home, "Rockbrook." After a ding trip, Mr. and Mrs. Tuck turn to Brevard where they their home on Probart street.

Miss Morris Hap Over Winning P

Kathleen Teague

Anne Morris says she as well as delighted when she had named the paper "The Echo" from the fact of pleasant valley of Ecusta with mountains that lend ing barricade for echoes. rite had selected her name quite before turning it in, not that another had chosen the

When I inquired what the five dollar prize she she still had it, wishing something that would be ing value and a constant her good fortune. Incident says she could use many spots, so if you have any pets you want named she be at your service.

Anne, we congratulate fine taste you showed in name for our paper. And if gratefully your department such an outstanding girl for workers.

Procrastination Costly Says Elsie Rice

"Proscastination was said Elsie Rice of the Mac department when I asked felt about naming the paper Little realizing how important to be to send her name in ede h layed too long and Ann Mc a week.

Not only did she lose for herself and her depart the five dollars as well.

When I asked her if lars was an incentive to name for the paper she admit" it was. But alas, ried her name on the card days another had sent the in and won the "laurels."

Her inspiration for a from the fact that she that the paper would be a would send out to our friend tomers and bring back to things that are said or ta at Ecusta. Since an echo that goes out and come and our friends, she thought be a suitable name for the

Elsie, we congratulate the same time sympathize So we say, "It's better to the paper too late, than named it at all."
