

REFINING "B" BALLYHOO

Charlie Lee is back with us after an extended vacation OF ABOUT THREE MONTHS. This is about the first time we ever knew of a fellow having to quit work three months in order to fool some girl into marrying him. . . . Born to Mr. and Mrs. Al Montville a flourishing young lady, Lynn Ann, weighing 7½ pounds. You should have been around when he came back to work. (Smoke I mean plenty of it. Those long barrel cigars that he furnished us.) . . . J. B. Rogers has been promoted to Williams' helper on the New Broke Beater. . . . It is also against the rules to curse in our new wash room, for fear our bachelor friend Markley Jones might hear someone and take up the habit himself. . . . Everyone is well pleased with the progress of the new Refining Room. The arrangements in general are far better. Thanks to our Management. Love don't seem to live up to his name as he always makes the boys mad at him by wetting them and always wanting to know why they overload his beater. . . . Feaster has gone to work at last, and best of all he is hanging up the hose he always fell over. . . . Blender Sledge is hard to find sometimes, so the boys have all learned his habit of pulling his little red mustache and when someone wants him, they start pulling their upper lip until their message reaches him. . . . We on B Shift would like to know if Seat Galloway is a monkey fleaing himself or a shot hawk trying to remove the lead.

PULP "D" DATA

The man on Shift "D" in the Pulp Mill are having to work double time lately, trying to keep stock ahead so that the new paper machines can keep going. But even at that they remember Uncle Sam and try to do their part for the defense. In the last month there has been three new additions in the families. A fine, hearty girl for Mr. and Mrs. C. B. Allison. Another for Mr. and Mrs. John Metcalf—these to be nurses, of course. And a boy for Mr. and Mrs. Fred Bryson. He will serve in Uncle Sam's Navy—so says Fred.

Emmet Wilson, a member of our shift now serving in the Army, was in for a couple of days' visit. We were all very glad to see him.

Lawrence Tipton got mad with his landlady because he thought she charged him too much for board and went native. He and the Mrs. are now dwelling in a cave or rock cliff some where near Lake Sega.

NEW SCHEDULE ANNOUNCED

Due to the fact that the number of our employees has increased to such an extent that the Payroll Department must more time in which to make up the payroll, it is necessary that the pay week end on Monday morning instead of Wednesday morning as in the past.

In order that each of you may be inconvenienced the least amount possible by this change, we are now advising you of this change which will take place Monday morning, September 15th, 1941. This means that the time cards will be turned in at 8:00 A. M., September 15th, 1941, and the time between then and Friday will be held back. This, naturally, will make a short pay day on September 19th, 1941.

This change also makes it necessary that the shifts change on Mondays instead of on Wednesdays as in the past. New schedules will be posted during the week preceding the 15th so that there will be no confusion. These schedules will be self-explanatory, but if there is any doubt in your mind as to when you are to change shifts, be sure to ask your Foreman.

In order that all hourly workers on each shift get an equal share of the 15 shifts and the 120 hours in the short pay week starting Wednesday, September 10th, 1941, and ending Sunday, September 14th, 1941, and in order that they have as nearly as possible their regular days off, the following schedule will be worked during this five-day period only:
