

### PULP "D" DOPE

Carl Bryson, ex-chlorinator, has been dismissed from the services of the U. S. Army. I saw him the other day and he looks all of it (28 years).

Ralph Moore is now stationed at Fort Bragg and writes that the army is great. (He's a small man, too).

#### WANTED:

One trailer, very small, room for one bed—Ray Cathey.

One belt, not mine—Frank Hunnicutt.

Real Tulane victory—Wade (after Vandy).

A car with a bent left fender—Ballard.

A cool night, with moon and dogs—Bear.

A deeper cave—Tipton.

No trip to Spartanburg.—J. N. Rhodes.

#### FOUND:

No better shift than Pulp D. After going to First Aid three times someone remarked of H. Anderson, "Surgeons Delight."

Clyde Galloway is out of cigars—Won't someone celebrate a birthday soon?

Congratulations to Pulp Mill—Not a white spot left on the Hospital Drive record.

This bit of satire was found on the desk of Machine A1 and B1—Author unknown:

When I was seventeen, I heard from each censorious tongue, Of this or that I shouldn't do, Because I'm quite too young.

I guess when I am forty years, I, too, will then be told Of this or that I shouldn't do, Because I'm too old.

O! harping world, if there's an age, Where youth and manhood keep

An equal poise, Alas! I must Have passed it in my sleep.

Heard Slim say: Safety First and good health are essential to a happy life and to a perfect work attendance record.

### BOWLING ETIQUETTE

Continued from Page 6

rect foul to have been called on you, do not stand at the foul line and argue with the foul line judge. Call the matter to the attention of the captains of both teams involved in the match. rememembr the foul judge is in a much better position to note any violations of the foul rule than the bowler himself, and there is no intention on the part of the judge to penalize a player unjustly.

Be punctual when scheduled to bowl, whether it is in league, tournaments or special matches. Nothing upsets a team more than being caused to wait for a tardy member. Should you be unavoidably detained, or know in advance that you will not be able to appear on time, notify your team captain or any other member of your team.

Become familiar with the rules of the game. Learn how to score. Attend all meetings of your league or association.

### COLD PREVENTION

It has been decided that cold capsules will be made available without charge to the employees of Ecusta Paper Corporation, Champagne Paper Corporation and Endless Belt Corporation. These capsules have the same effect as the shots to prevent colds, influenza, sinus trouble or any complications of the common cold. Diseases of the upper respiratory system as a group cause the greatest decrease in efficiency and loss of time from work among the industrial population and constitute one of the chief health problems of the people at large. We would like to keep down as much sickness as possible from the cold by giving the capsules.

The capsules should be taken as follows: One capsule each day, one hour before breakfast or one hour before a meal for six mornings; then one capsule an hour before breakfast each week for about fifteen weeks or better throughout the winter.

The employees lost more time during last winter from colds and complications of colds than from any other disease. This vaccine or the cold shots are effective in about 60% of the people who take them. Many people are entirely free of colds for a whole year after taking them, though they have been highly susceptible and have had frequent colds in the past. I think this is a splendid opportunity and one that should be taken advantage of by all who have frequent colds in order that we might be able to do more work and do it more efficiently.

After November 15th these capsules will be in the First Aid Department for those who care to come in and receive instructions how to take them.

### VISIT YOUR DENTIST

The plant physician has about completed blood tests and a survey of the teeth of all employees. It is very important that those who have defective teeth consult their dentist at once and have the condition remedied. Defective teeth may cause or may contribute to serious physical complications. The First Aid Department will follow up on this survey to see what the employees have done in regard to having their teeth repaired. Every one is urged to attend to this important matter at once.

Nearly twice as many people are killed in automobile accidents on Saturday and Sunday and half again as many are injured as on the average week day.

### REFINING "B" BLINKERS

Shift B is getting along so nicely this month there isn't very much to report, except our glamour boy, Ray Fisher, is wearing painted finger nails now.

It looks like Lane and Holliday would rather go downstairs to the shower room where it is nice and warm than give each other a bath out of the hose.

Jimmy has been trying for the past few days to find another scratched place on him, so he can go back to the First Aid.

That surely was mean stuff Jack Wilber drank the other day. He crawled between two big wash tubs out in his backyard. He would lift the top one a little ways when anyone passed, and tell them he was an oyster.

One of our boys had a friend visit him from the North a few days ago. The boy introduced him to his father, who was very hard of hearing.

Son to his Father: This is my friend from up North. He's a Yankee.

Old man (with hand to his ear): Hey?

The son repeated it.

Old man: I see, I see.

Son: He is a son of a Bishop.

Old man: Little louder, son, little louder.

Son: He is a son of a Bishop.

Old man: I see, I see. They all are.

### GARDENS VISITED

Continued from Page 4

Historical Society. From there we went to Williamsburg—the restored capitol of Colonial Virginia. Of particular interest to us were the formal gardens of the Governor's palace and the many old box-wood gardens. We didn't tour the old buildings since our visit was chiefly concerned with gardens.

From Williamsburg we drove to Kennett Square, Pa., where we saw the huge gardens of Mr. Pierre Dupont. These gardens cover approximately thirty acres, and are laid out formally in a combined English and Italian design. The fountains are a special feature, and when in operation require about 160,000 gallons of water per hour. At night they are lighted with colored floodlights.

Mr. Dupont's Horticultural Exhibition house covers about an acre and a quarter and is about forty feet high. In this, many tropical and subtropical trees and flowers are kept in bloom. We saw, among the many other flowers, about a dozen varieties of orchids, paradise flower, azaleas, camellias, citrus flowers and fruit and countless others.

In addition to the Exhibition House, there are other greenhouses which cover three acres

### "BACK TO NATURE" GROUP HAS GREAT WEEK-END

Last Saturday a group of "back to nature" enthusiasts set out for a week-end in the Smokies. It's pretty funny to tempt bringing back a group for those who did not make the trip. Be it sufficient to say that coloring in the mountain sight is indescribable. We stayed long enough on New Gap to watch the moon come up and arrived in Gatlinburg in time to freshen up a bit, eat a meal of baked ham, hot biscuits, wild honey, and the trimmin's. Then off to the curiosity shops. The night was saved for bowling in a square dancing later in the evening. Eb Morrow came to square while the Tennessee mountaineers watched and strut their stuff. Would you believe it, they didn't know how to Fly! Margaret Hannan (drouis applause) brought a chicken and pies which were incredible disappearing between squares. Next day started another tour of the Smokies but decided to ride the Smoky Forks Trail with Dobbin. The ing togs were at a premium where there's a will there's a way. The fellows loaned extra trousers and they spent the next 1/2 hour in misfits look like the ones at Harper's Bazaar. A detailed count of the ride may be found in the next Echo. I believe me, it's worth reading after a 10 mile jaunt straight and straight down, over under the river crossing, tumble and a run-around "carried" the horses and crawled to our camp. fried chicken dinner took us to the state of complete thought and we were on our way home.

Even the trip home was to order for the moon with us to the bitter end. have been requests for chairs and large soft pillows to replace our present moon but no fatalities are reported.

We're sorry more couldn't make the trip but there will be more trips in the near future. hope you'll be with us next time.

On our return trip through Potomac, Washington a woman at Memorial High wedded me.

We mad "do." the trip to beautiful your lawful ding ar "nd?" in this: "We do."

ister: "Some of e back will have sider if you want to be ed in this!"
