

Pictorial Visit Through Electrical Department

No Soft Job Fixing Electric Motors

Shown in the picture at the top, left, are John DeBord and Reid Bishop handling a rotor out of a 30-HP motor and Kay Collins recording maintenance data on record forms.

At the top, right, is a view along the work bench. Left to right in the picture are Leslie Jones, I. F. Hargis, H. L. Gray, H. D. Gordon, Robert Sherrill and Clyde Holden.

Second view, left from top, is Robert Sherrill making a motor coil on the coil winding machine and I. F. Hargis winding a small motor.

Second view, right from top, are Bill Sizemore and H. D. Gordon lifting a stator out of the dipping tank.

To the left here is Gus Bostic lifting a 30-HP motor with the 4000-pound mono-rail crane.

At the bottom, left, is Newton Pickelsimer cleaning a motor stator and on the right is Tom Hargis, taking a stator out of the baking oven.
