

## Brigade Consists Of

—From Page Two—

consists of 150 fire extinguishers of five different types and thirty-four 50 foot lengths of 1½ inch linen indoor hose.

The types of extinguishers are as follows:

2½ gallon Soda-Acid, excellent for ordinary fires such as wood, textile, paper, rubbish, etc.

2½ gallon water type anti-freeze excellent for ordinary fires such as wood, textile, paper, rubbish, etc.

2½ gallon Foam Type, excellent for ordinary fires such as wood, textile, paper rubbish, etc., and for flammable liquids, oils and greases.

1 qt., 2 qt. and 4 pt. Vaporizing liquid type containing Carbon Tetrachloride, suitable for all fires and excellent for electric and internal combustion engine fires.

No. 2 and No. 15 Carbon Dioxide Type, not very effective on ordinary fires such as wood, textile, paper, rubbish, but excellent for all other fires, especially when in confined areas.

In order to use this first aid fire fighting equipment to its best advantage by extinguishing small fires before they can gain headway and to assure prompt action in sending in fire alarms, a group of fire wardens have been chosen for each building and each shift. These wardens are familiar with the location of the alarm box or boxes nearest to them and with the fire extinguishers and small hose in their building and are taught how to use them. Their duties are to send in an alarm promptly in case of a fire and to fight it with all means available until the Brigade arrives.

**SMOKING** in any form whatsoever is strictly prohibited inside the wire fence which surrounds our property except in 10 designated places.

## Beauty On The Job

—From Page Seven—

thrilling rewards in the form of a skin to be proud of.

These things are "musts" . . . as every-day as you brush your teeth and bathe. As a special, a bit of an extra, two or three times a week use a special astringent cream. This cream, used according to the directions, will clean off any surface blackheads, clear out clogged pore openings and give the skin a more radiant, transparent look.

Now to your hands. Here again, protection and cleanliness is the password to lovely hands. Use a handcream that is protective, and will also work as a conditioner. Apply it generously before going to work, massage more cream into the hands and then run some cold water over them and dry. In this way the cream leaves a protective film over the hands, and helps prevent dirt and grime from grinding into the skin. When you wash your hands, the dirt and grime washes off with the film of hand cream. Always apply more hand cream every time you wash your hands and run cold water over them before drying.

This is really a very simple beauty regime and takes far less time to follow than it has taken you to read about it. The secret is **faithfulness** . . . every day and night, without skipping once, no matter how tired you may be, or how wonderful your pillow looks to you. The reward will be well worth all the effort . . . for you'll have the kind of fresh, dewy transparent skin and soft lovely hands that will truly make you "so nice to come home to."

## Military Honor Roll Corrections

(Note: New names are set in black face; \*\* mean "Returned from Service.")

Bell, Rosa Edna, Seaman, 2c.  
**Brookshire, Henry S., Jr., Ecusta Machinist 3rd Cl.; 9-4-43; Army.**  
 Brown, Harold H., Seaman 2-c.  
 Buchanan, Floyd V., Seaman, 1-c.  
 Case, Ralph L., Pvt. 1st Cl.  
 Case, William M., Pvt., 1st Cl.

\*\*Young H. Hoyt, Pvt. 1st Cl.  
 The following appeared on original list through error:

Cunningham, Lee V.  
 Peavy, Pink E.  
 Pitts, Lincoln C.

A recent check on addresses reveals that out of an Honor Roll of 512, about 155 are overseas or stationed outside the U. S.

Some species of rattlesnake are able to swim in the ocean.

Immigration from East India to British Guiana began in 1838.

The Romans were the first to convoy ships with fast galleys, are now available.

## Manages Fibre Co.

Wade H. Ramsey, Jr., who recently visited Ecusta, is manager of California Central Fibre company.

## STORK CORNER

Born to Mr. and Mrs. Curtis Pettilo, a daughter, Patricia Lee, August 26. Mr. Pettilo works in the Finishing Department.

Born to Mr. and Mrs. Fritz Merrill, a daughter, Rita Ray, September 4. Mr. Merrill is employed in the Pulp Mill.

Born to Mr. and Mrs. Ralph Greene, a daughter, Hazel Helen September 7. Mr. Greene is employed by Ecusta as a painter.

Born to Mr. and Mrs. Stephen McKinney, a son, Jack, September 10. Mr. McKinney works in Ecusta's Finishing Department.

Born to Mr. and Mrs. M. A. Schlosser, a girl, Margaret Leone, September 15. Mr. Schlosser is employed in the Research Department of Ecusta.

Born to Mr. and Mrs. Manson Hyder, a daughter, Carolyn, September 21. Mr. Hyder works in the Finishing Department of Ecusta.

Born to Mr. and Mrs. Carl Edward Eldridge, a son, Carl Edward Jr., September 30. Mr. Eldridge works here in the Maintenance Department.

Born to Mr. and Mrs. Carl Stephens, a daughter, Carla Marteil, October 2. Mr. Stephens is employed in the Main Office of Ecusta.

Born to Mr. and Mrs. James Avery, a daughter, Sandra Elizabeth, October 3. Mrs. Avery was formerly employed in Hand Booklet and Mr. Avery a fire controlman in the navy, was previously employed in the Gumming Department.

Born on October 6 to Eddie and Margaret Moss, a daughter, Vivian. Eddie is an Ecusta chauffeur.

Born to Mr. and Mrs. Merrill September 29. Mr. Capps is employed in the Finishing Department of Ecusta.

Born to Mr. and Mrs. Cecil Morrison, a son, Charles Howard, on Sept. 30. Mr. Morrison is in the Champagne printing department.

## STITCHING GAB

Can you imagine:

1. Jimmy D. acting dignified?
2. Pearl A. not going to the "office"?
3. Myrtle P. picking up speed?
4. Teddy without his wonderful patience?
5. John S. without his mustache?
7. Frances W. without Edna W.?
8. Jo C. with untidy curls?
9. Evelyn F. without her boy friend.
10. Henry E. not bringing chewing gum to the girls?
11. Marie L. with blond hair?
12. Margaret P. without her theme song, "Pistol Packing Mama"?
13. Thelma S. without her glasses?
14. Maye W. six feet tall?
15. Kate S. without chewing gum?
16. Lilly S. minus the navy?
17. Nell L. with a raincoat when she needs it?
18. Betsy Slimmer with a Yankee brogue?
19. Dot G. picking cotton.

## Finishing Touches

Well, folks, graveyard hasn't quite gotten us down, so here we are. We're beginning to think this isn't such a bad shift after all, although Eunice had to summon every ounce of energy to stay awake a few times and Bob Dalton blinks pretty rapidly on Monday nights.

Kinda had a mix-up this month, due to exchanging Ruth, Frosty and Elvert for the Dalton sisters, Ada and Opal, who are going to night school. We miss our former pals, but glad to have Opal and Ada.

Grace Hix is now a 'Mrs.' and reports liking married life fine.

Look who's just returned! The Finishing Dept. must really have something to induce Sue Orr to give up a winter in Florida for her old job back. Then Nadine Mills stayed away just as long as she could—finally surprised us all by quietly appearing one night and started labeling as naturally as though she hadn't been gone for 15 months. Glad both are back.

"Fat" is so very, very proud that he can hardly contain himself. Why? Because he has a new baby girl at his home.

Evelyn and Thelma have a temporary helper to 'yank' those bobbins off. Seems like Amy H. is just plain lucky—three boy friends—plus a car.

Sue O. is of the opinion that staff sergeants are wonderful. Wishful thinking—a furlough would be nice, eh, Sue? Charles M. thinks he has the ability to see into the future. Girls, this might be a way to have your future told.

Helen Rhodes must like the eastern part of the state. She heads that direction often.

Mary K. says she enjoyed her vacation a lot—spent it in the country. Cecil and Francis Smith are absent, too, so is Helen Galloway. All are on their vacations.

## Just Think—

In the last World War, four thousand men were killed in the ten minutes before the Armistice was declared. Multiply that ten minutes by hours and days and weeks and months and even years, and you will realize to what extent the power to shorten this war, and save the lives of thousands of our boys, lies within your pocket and your power. Buy Bonds!—Fannie Hurst.

**KEEP 'EM FIRING — WITH JUNK!**
