### THE WHOLE WORLD KNOWS IT

When a garage man makes a mistake, he adds it to your bill.

When a preacher makes a mistake, nobody knows the difference.

When a lawyer makes a mistake, it was just what he wanted, because he has a chance to try the case all over again.

When a judge makes a mistake, it becomes the law of the land.

When a doctor makes a mistake, he buries it.

But when the editor makes a mistake—GOOD NIGHT!

(From "Made in America Monthly," Feb., 1944)

"Brown never completed his education, did he?"

"No. He lived and died a bachelor."

### SWING BACK TO METAL

If your shopping experiences last year were typical, you probably found that in general it was hard to find things made of metal, relatively easy to find things made of cloth. By the end of this year there's a good chance that this rule will have begun to reverse itself. Reason: the supply—which is only fair to begin with—faces the added drain of foreign relief.

## Sew And Save For A Spring Wardrobe

During the late winter months a woman's fancy naturally turns to thoughts of clothes. Stimulated by the store displays of bright new suits and dresses, she has rosy dreams of being a best-dressed woman. But her spring wardrobe plans are often cast aside as wishful thinking, because of her budget conscience.

This need not be the fate of your wardrobe daydreams. The solution lies in sewing for yourself. Besides being patriotic and practical by making your own clothes, you will find it a pleasure to sew when your finished garment has the individuality that is the stamp of more expensive ready-to-wear.

Before deciding just what to make for yourself, take time to study store windows and fashion magazines. This spring spells suits, ranging from the basic tailored type to dressmaker and cardigan suits. Because of the smooth simplicity of styles, color is most important as an accent. Pastels, gold, tangerine, purple and deep pink are among the coming color preferences, especially as compliments for the ever-popular navy, brown and black. Current, also, is the use of self-ruffling on dresses, darts and tucks for decoration, designs made by the pattern of the fabric itself.

When you have combined your personalized pattern, the right materials, color and finishing touches, you will discover that the sum total is even more becoming than you had fondly imagined. Within reach of your finger tips lies the power to make your dreams of spring costume magic come true.

## Your Guide To Daily Living

From Washington Bureau

### PUT AND TAKE FOR VICTORY

In planning your Victory garden, give first place to the vegetables which are (1) highest in vitamin content; (2) easiest to grow; (3) good for a steady yield throughout the summer. Tomatoes, string beans and leafy green vegetables have high scores on all three counts. If your garden is small, put at the end of your list vegetables that take a lot of space, like corn and potatoes and vegetables that are grown commercially in huge quantities.

### NO PRESCRIPTION—NO SULFA

Never ask your druggist to sell you any of the sufa drugs without a doctor's prescription. For all they have accomplished some miraculous cures, they're powerful drugs, and only a doctor can determine which should be used for a specific ailment and in what quantity. The people who have been dosing themselves without advice have had some unfortunate consequences.

### PRICE CEILING CHARTS

By the end of this month your ration board expects to have enough copies of the price ceiling charts posted in grocery stores to give you one if you ask for it.

### CABBAGE ROSES

Your new spring hat is more likely to sport a cabbage rose than a bunch of little ones. Reason: hats with big flowers require less labor all around.

## Now Is The Time To:

- Pay taxes.
- Repair furniture.
- Test left-over garden seed.
- Spray shrubs to kill scale insects.
- Buy extra bonds during this 4th drive.

Start planning your Victory garden for this year if you haven't done so.

Try the new recipe that Mabel told you about. Give the family a change.

Walk over to your neighbor's house and visit a while tonight; they are nice people and you should know them.
