## A Real Wedding But No Woman!

Here are scenes taken at that "solemn" occasion. The picture at the top was made just after the wedding party had reached the stage. At right is a closeup of wedding party. The four pictures at the bottom of page show at upper left: Jilted Sweetheart telling minister why the groom should not be allowed to marry the bride; at upper right Mother of the bride talks to a guest; at lower left, the attractively decorated altar and at lower right the bride's baby sister and her colored nurse.
