

# Club Sapphire To Become Year-Round Playground For Ecustans

## Three War Bonds Are Offered For Best Suggestions For Development Of This Property Into A Big Recreation Center

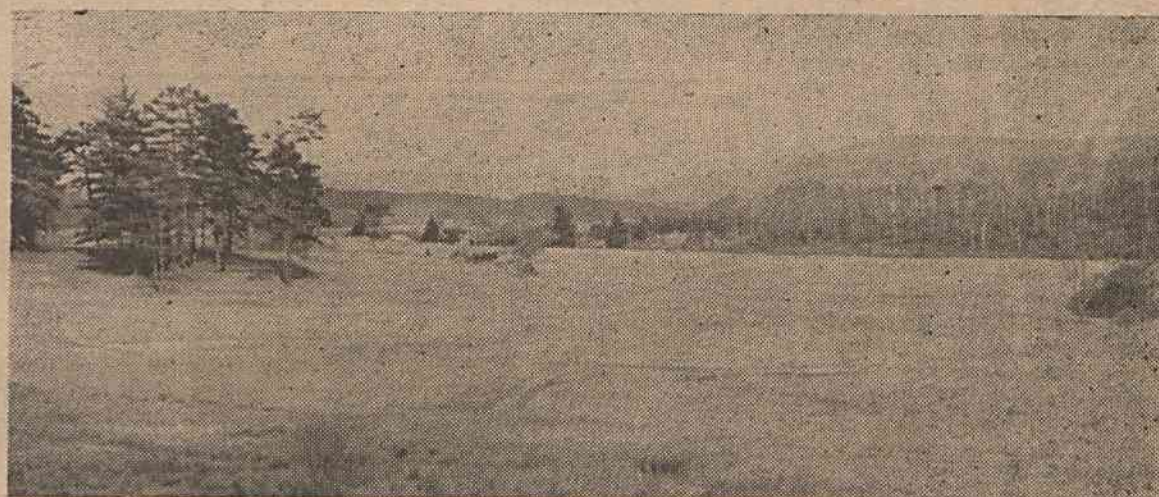

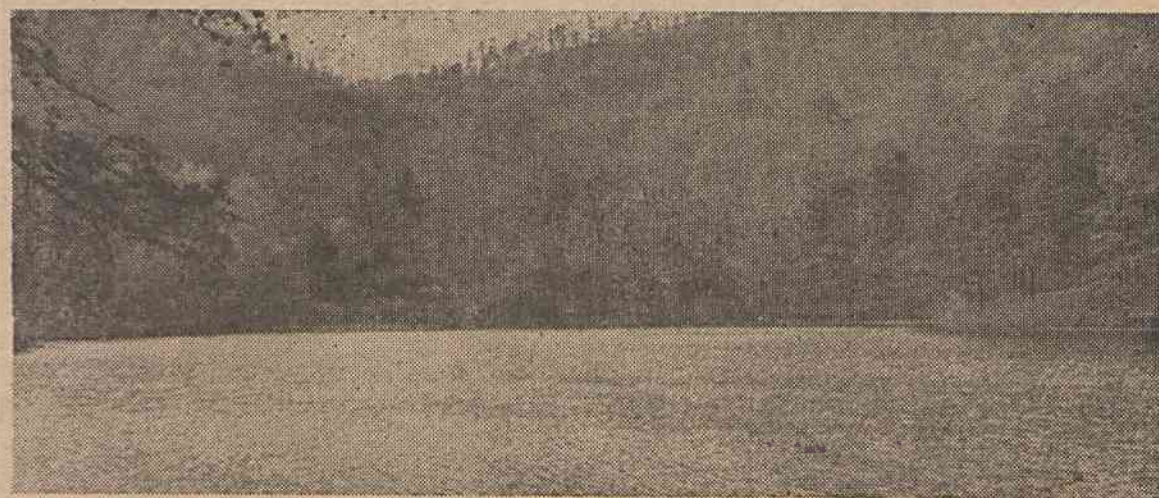

The aim of our Company is to make Club Sapphire the finest and best Recreational Center to be found anywhere and to accomplish this objective a contest is being conducted among all employees for suggested plans and details.

For a number of years this property was known as Camp Sapphire, a summer boys' camp and more recently it has been operated as a private club. The property consists of approximately 300 acres of land, a large lake, and a number of buildings. It is conveniently located near the plant and near Brevard.

The large pictures on this spread show what the property looks like today. After it has been developed into a Recreation Center for all Ecustans, we believe you will notice a great difference in what it looks like today and what it will look like in the future.

Ecustans have already enjoyed playing at Club Sapphire. Our Fourth of July picnics have been held there and shown below are some photos that were made at the big annual picnic last year.

Plan now to enter the contest and win a War Bond. Send in your suggestions.

## We've Had Lots Of Fun At Club Sapphire In The Past
