Mrs. Lee is a graduate of Brevard high school. She is an employee of Endless Belt at Ecusta.

Mr. Lee, who recently received his discharge from the navy, entered service in October, 1943, and spent two years overseas in the Pacific area. He is a graduate of Rosman high school and attended

NEW HEARTS FOR HOMES. Some new homes will feature a mechanical core which contains heating, plumbing and electrical facilities all grouped within a single compact area. Such a central unit is designed to save space and also wiring and piping. It can be fancy enough to include garbage disposal and air-conditioning units, all of which can be included in the long-term financing of the house.

SMALL UPRIGHT PIANOS with finished backs which need not be turned to the wall are in the offing. So are some new music boxes combining piano, radio and record player in one compact unit. There is even a new folding piano for smaller rooms; you can tuck the bench and keyboard into the cabinet when it's not in use.

A NEW LIGHTWEIGHT CAST for bone fractures is made of glass fibre and plastic. It weighs only a fourth as much as the traditional plaster of paris cast and need not be removed for X-rays.

GERMICIDAL LAMPS which destroy air-borne bacteria will be more widely used as a result of wartime expansions of facilities for making them. A considerable number will be on the market as surplus war equipment.

DEHYDRATED FOODS new to the civilian market this year will include: tomato powder for quick flavoring uses; prune, banana, apricot, fig and peach powders for whips, breads and homemade ice creams; guava powder for jelly. Besides, there will be much more dry whole milk powder.

WAR GLUES so strong they can do the work of nails will be used in building many a postwar home. Glued-on mantels, stair railings, window trims and baseboards are among the possibilities.

UNDERWEAR NEEDED. Relief workers from every part of Europe and from China report a desperate need for underwear. People who were burned out of their homes had only the clothes on their backs and the most perishable part of this was the underwear. Also there was a noticeable shortage of undergarments among the millions of pounds of clothing contributed by Americans in the spring drive.

SUMMEY-FREEMAN

Miss Fannie Elizabeth Summey became the bride of Mr. Clifford A. Freeman, Saturday, January 5th., in Greenville, S. C. Mrs. Freeman, daughter of Mr. and Mrs. John Lewis Summey, of Horse Shoe, is employed in the Finishing department.

Brevard college.

Mr. and Mrs. John Reid and Miss June Lee accompanied the couple to Greenville for the ceremony.

Mr. and Mrs. Lee are at present making their home in Brevard.

NOT TESTED

"Is the new customer honest?"
"Don't know, he's paid cash so far."
