ALL CROSSED UP

Did you say your girl's legs were without equal?
No, I said they were without parallel.

FOOD NEWS—There is a way to moldproof bread by electronics before it leaves the bakery . . . A powdered coffee which mixes instantly for iced as well as hot coffee . . . New candies developed from army ideas used in fruit bars for K rations . . . Also, a carrot candy. **NOTE:** If you see white peanut butter on your grocer's shelves it will be the result of a new process to take the color out of peanuts so that they can be more widely used in synthetic fibers, glue and paper coatings.

ALUMINUM CLOTHES PINS in all colors and plastic clotheslines in forest green will be available soon.

BONDS FOR SALE—The Treasury Department will continue its bond and stamp sales, and payroll deduction programs will in general go on as before. Remember that inflationary pressures are even greater now than they were during the war and that every bond you buy and keep helps hold prices in line.

PLAGUES ENDED — The war brought an answer to two of the world's oldest and deadliest diseases: typhus, which DDT takes care of, and cholera, for which the Navy has found an effective treatment.

SOME OF THE NEW HARDWOOD FLOORS will be made of soft woods chemically treated. Also on the way for furniture are cheaper and softer woods plasticized to give them greater strength and a varnished look which won't wear off.

AGED AMERICAN CHEDDAR CHEESE wont be available in normal quantities before summer, at the earliest. There is slight chance for an upturn in imports of foreign cheese this year; most European countries need every bite of food they can get for themselves.

A WAR-DEVELOPED WEATHER-PROOFING LIQUID will be on the market this summer to protect your camping and sports equipment against downpours, mildew and rot. It is transparent and can be sprayed on fabrics without destroying their flexibility. It's good for lawn umbrellas, too.

ORDINARY FABRIC RAIN-COATS which shed water because of the way they are woven rather than because of the way they have been treated may some day be available. They are possible because of a new technique for weaving cotton into a firehose which needs no rubber lining.

ORDER YOUR COAL NOW—Remember the difficulties you have had this past winter trying to keep enough coal in the cellar so order your coal now for next year. You probably won't be able to get enough to fill your bin but if you can get a part of it within the next few weeks, your heating problem will be considerably lessened next fall when those who invariably wait until the last minute are trying to get their coal.

NEVER TOO OLD TO LEARN

Old Paw was in his rocking chair on the front porch, rocking due east and west. Beside him was Sonny Boy, an innocent of 40, rocking north and south. Presently Paw said, "Son, why wear yourself out that-away? Rock with the grain, and save yore strength."
