MACHINE ROOM NEWS

By Burder Teague

Hats off to the Machine Room baseball team! Our team came through in the good old fashion way by winning a double header from the Generals. We also won the Interdepartmental championship trophy for 1949. Nice going fellows. Roy Carter of Champagne had the highest batting average with .500. Several of our players had an average of over .300, and when we have a bunch of fellows like that we are bound to win.

And now for the best news yet. Born to Mr. and Mrs. John Collins a 7 pound 12 ounce girl. Margaret Ann was born August 2nd at the Biltmore Hospital. At the McKinnish home its a boy. Nathan McMinn informed your reporter that he didn't like to see his name in print. Well, if Nathan doesn't want us to mention his name (Nathan McMinn) he must have a reason, so we'll wait a month or two to print Nathan's name and to write about all those football games Mr. McMinn is going to. Nathan McMinn is a rabid football fan and goes to several big games each year, don't you Nathan?

That is all of the news for this month, but we have an army joke that we thought you might like. The green recruit walked past the Colonel without saluting. "Hey soldier," snapped the red-faced Colonel, "Come back here, do you know who I am?" "Nope," replied the recruit. "Well," said the Colonel, "for your information I am the top man here. I give all the orders around here. What I say goes." "Look bub," replied the recruit, "lemmy give you some advice. You got a good job here. Keep your mouth shut and don't louse it up."
