

## POWER DEPARTMENT NEWS

By Howell Medford

We welcome to the Power department the following new men: Olin Cairnes, Thomas Bowen, Zeb Jackson, George Strickland and Bill Kendrick. We welcome these men to our midst, and want them to feel at home in our department. All the fellows are very willing to lend a hand in any way. So we say welcome aboard fellows, glad to have you.

Work is progressing nicely on the new addition to the Turbine Room and Boiler Room. It is hoped that in the future we can be better able to offer steam, electricity and water in desirable quantities to all departments. Our motto is satisfaction to all. We hope we can cope with it in the future as we have in the past.

Everyone has about finished this year's vacation. Some of the boys have been trying to hook that big one they failed to get this summer. From the looks of things they have done quite well. Sam Kent and Obie Willingham proved that a few weeks ago. Kent and Obie have been at each other's throats all summer. Kent leads Obie with a 7½ lb. Obie is trailing by a half pound. Nice going, fellows, maybe that is the jack pot money for this year.

Sherman Hunter worked on his house during his vacation. He is making some additions to it.

John Jackson is busy on the farm and home. Oh, yes, he is in the cattle business. He sold one calf.

Walter Kay finished his vacation with a bang. He put the finishing touches to his new garage and caught up with the odds and ends. He welcomes football season and the world series. Me, too.

Thomas Evans visited his father and friends in Alabama. We hope he found his father quite well, and that he had a good vacation.

Samuel Rose took a good long rest and wound up the garden and flowers before old man frost comes around. Good idea, Sam, it's almost here.

Horace Hall and the Mrs. finished their vacation by visiting friends in Asheville and oh, yes, fished from Murphy to Manteo. The luck, we do not know. At latest reports he had not fallen in the lake anymore. I guess it's too cold for that now.

Clarence Allison returned from a grand vacation. He says he went all the way to Glenville and back. He reported catches of 2" and 3" breams.

One of the most discussed items in the Power department is school. All the fellows put the kiddies first and want them to be fully prepared for

life as far as is possible in an educational way. They see that the children have the best from pencils to transportation. We admire all the fellows for this fine attitude. Cooperation by the parents is half of the battle, fellows.

From all reports, the squirrel season is off to a slow bang. Seems there is not many of these little creatures to be found. Maybe they will migrate this way yet.

Lewis Alexander and family enjoyed a vacation by fishing—and all the trimmings. Lewis got trimmed, too, and by his sons—both of 'em did it. Lewis got by by saying he just went along to hold the bag.

We welcome to Mr. Finck's office Mrs. Catherine M. Brank. We hope she finds her work pleasant in every respect. It will be lots nicer for her and the entire staff when the new office is completed. Mr. Finck hopes that some one of these days he can quit moving every few months and get permanently located.

Jim: "Why do you know that eating carrots is good for the eyes?"

Joe: "Why you've never seen a rabbit wearing glasses, have you?"

---

Archaeologists from the University of Pennsylvania uncovered a stone relief of a 5000 year old Mesopotamian Temple of boxers with gloves.
