## CELLOPHANE DIVISION

### FINISHING DEPARTMENT

By Willoree Carland

The wild, wooly World Series, of this year, is over, and the Yankees won again, making three years straight, they've been champions. Everyone enjoyed the games, especially the Yankee fans.

The Red Cross blood drive was very successful this year. Our department really responded well to it.

Henry Arrington must have found the over-drive gear on the big drum machine, for he sure has been running lots of film lately.

Lewis Meece enjoyed a trip through Mt. Mitchell. By the way, Lewis must be holding something out on us, for he got a telephone call the other day telling him to come home, for his wife was sick.

Willie Dockins had a visit from her brother, who is in the Navy. We wonder where Willie got that beautiful ring she's been wearing lately.

Ruth Reid and Agnes Gash went to Lake Toxaway, chinky-pen hunting. They said they had lots of luck.

It's a good thing Cecil McMinn doesn't have to work, very much, around a washing machine, for he would surely get hurt.

J. L. Edward, and Henry Arrington have been on the sick list this month.

Callie Talley asked Lewis to bring her a lantern, so she could see, to go to the locker room.

Cleo Sentelle, and Elizabeth Barnette enjoyed a picnic, which was given by their church.

### FINISHING "A" SHIFT

Ernest Evett, former serviceman for A Shift, joined forces with wrap and pack on the fourth of this month. This makes a full crew for weigh, wrap and pack. A good crew, too.

Wonder where Paul McCoy goes on those mysterious trips. Twice I've seen him on some lonely road, hurrying along. What was I doing there?

D. E. Brookshire and wife announce a new addition to the family. D. E. was in quite a stew for awhile, but he finally brought in the cigars and said he was glad that was over. The new addition's name is Mary Katherine, weight 6 lbs. 3 ozs.

Hugh Allen reports he can drive from Canton to the plant here in forty minutes. That new bridge is really a big help. Edwin Hamlin replaces Edward Bryson as pull-out man. Edward is enjoying another term at W.C.T.C.

Here comes another chart to check so I'll say so long till next month.

*Above is Dennis Cornell, 11 months old son of Mr. and Mrs. John A. Wilde. Dennis' father is employed in the Finishing Department of the Cellophane Division, and his mother was formerly employed in the cafeteria of the Paper Division.*

### FINISHING "B" SHIFT

Now that winter is closing in on us we are having fires to build and more clothes to put on. Harley Hampton, who just purchased a new Sigler oil heater, would like to know if anyone has any extra oil barrels they would like to sell.

We hear that one of Harold Donaldson's uncles has gone into the chicken business. When asked what kind he was raising, Harold promptly replied, "White Rhode Island Reds." Do they lay colored eggs Harold?

We have had a few on our "Ailing List" for the past few weeks. Bill Phillips just returned from being out two weeks with a very bad cold. Wayne Myres is still out with a severe knee sprain.

Wednesday and Thursday (the 10th and 11th) was "Red Letter Day" here. We are proud of the way the men responded to the "bloodmobile". They gave 22 pints of blood. Those giving were: Lawrence Hulbert, Jack Gillespie, Johnny Misenheimer, Lindy McGowan, Harley Hampton, Doyle Stamey, Duane Hooper, Richard Clark, Joe Wilde, Vincent Dixon, Carlos Sales, Horace Blythe, Elgin Ledford, Bob Stewart, Clent Morris, Ty Morris, Calvin Green, Glenn Arrington, Craig Snipes, Bob Ducker, and Dan Taylor. We are proud of our record.
