

## POWER DEPARTMENT

By Howell Medford

John Brown worked on his new house while on his vacation. He also has a new barn. Since he is in the dairy business this is very fitting. He lives just across the river from the Power Plant.

Dutch Bruner finished his vacation. We haven't seen or heard from him as of yet. We suspect him of going to Frozen Creek. We'll know when he returns.

Chan Asheworth had the pleasure of the last vacation in the Turbine Room. He is spending his vacation trying to beat Sam Kent on the fish catch. Sam says it's no use fellows, Chan says he isn't going down with his hands in his pockets.

Tom Bowen is the only fellow to report any luck hunting. He has most of his luck catching groundhogs. So far he has reported one.

Mrs. Emitt Reece is ill in the hospital. We hope by now she is well and back home where we know she desires to be.

Bob Duckworth, Foy Guice and Obie Willingham went fishing or gunning for Sam Kent. They sighted great schools of bass. Obie and Guice, so Bob says, jumped to the front of the boat and went to casting. Of course Bob never had a Chinaman's chance. The result is that Foy and Obie reported good catches. The plugs were flying so fast all poor Bob could do was lie down to keep from getting hooked in the head with a big plug. Never, again says Bob.

Tom Evans has been out sick for a few days. We hope he will soon be among the regulars on duty again.

There has been lots of colds in our department. I guess the change of season has brought about all of this. We hope all the fellows will soon be able bodied in a few days.

We now have all six of our boilers in operation and still we can't cope with the demand for steam. Ecusta leased three large locomotives from the Southern Railway. In a few days they will be hooked up to our steam system to aid the situation. It is hoped, by this means, we can be more able to accommodate everyone concerned. We ask the cooperation of everyone until we can get the necessary installations made. This is being done as rapidly as possible.

## CELLOPHANE FOR EMPLOYEES

Employees who have not used their authorization slip to buy a package of reject cellophane sheets, may do so now if they so desire. Even though the slips are printed to be void on October 1st 1951, they will be honored until the present

## OFFICE

By Frances Heath

The Cellophane Office welcomes Mr. Collisson and his staff.

Mr. Pierce is on vacation in Virginia this week. Mr. Atchison attended the "Materials Packaging and Handling Exposition" in Cleveland, Ohio last week.

Mr. Ayres is attending the "National Safety Congress" in Chicago.

Bill Woodward refused to tell us about his week at Fontana, but from what we hear, he caught a total of five fish, averaging five inches.

Everyone is enjoying the visitors from New Haven, speaking of them, one is a 10:00 o'clock scholar, and regardless of the time or place, he always says a word for Texas.

We understand Bobby Jackson has the idea of walking to Toxoway at least twice a week, that's a long walk Bobby.

It's been said that all you have to do is approach Bill Woodward with a book in your hand and he screams "Go Way, I Ain't Gonna Give No More Blood".

We've heard that Harry Kahn tried to race with the State Trooper, it's been tried before, one man got five years.

Ted Deacon's answer to the most used question "What's the News" was, "A CHARMING TIME WAS HAD BY ALL", while Don Parker still sticks to "I DON'T KNOW ANYTHING."

It's been said that some of the fellows from the Ecusta Machine Room are taking their vacation beginning October 15th. We have all been expecting Ruth to take her's that week also, but for some unknown reason she isn't.

Lita's general subject these days is her "NEW SHOES", with the rhythm step.

Supervision has questioned the fact that Sara McCall has changed her vacation date - - -

Al Kriek's two latest hobbies are collecting waste and giving blood. We hear he is giving the latter up.

Needless to say, we all miss Mr. Keating's friendly "Hello" on the second floor, although we congratulate him on his recent promotion.

While on the subject of promotions, the Office wishes to congratulate each of the following: Messrs. E. L. Lynn, R. S. Heller, C. C. Johnson, W. R. Athison, C. M. Bahnsen, P. W. Schlunz and W. F. Huffman.

supply is exhausted.

The Cafeteria still has a small supply that will be on sale during the regular lunch hour. It will be sold only to employees who have not already purchased a package. The supply is not sufficient to make duplicate sales at this time.
