

## MASTER OF MAGIC

C. Thomas Magrum, billed as a "Master of Magic" is scheduled to appear here in the Cafeteria on Saturday night, November 17th, at 8:30 P. M.

Mr. Magrum, a nationally known professional magician, is beginning a tour of the southern states after a brief vacation in Illinois. During the winter season of last year he gave daily shows in colleges and schools in North Dakota and Wisconsin. He traveled 12,000 miles and gave 361 performances.

This performance promises to be an evening of interesting and mystifying entertainment. All employees are urged to bring their families and enjoy a night of thrills and laughs.

## MOVIE SCHEDULE

November 1.....UNDER CALIFORNIA STARS  
Roy Rogers, Andy Devine, Jane Frazee

November 8.....MISTER 880

### SELECTED SHORT SUBJECTS

Serial: The Adventures of Captain Marvel

The National Wildlife Federation recently published in their "Conservation News" a table showing the apportionment that each State will receive from the Pittman-Robertson fund for use in wildlife restoration projects for the fiscal year 1952. Total available for distribution to the States is \$17,191,031.04. North Carolina is listed in the table as follows:

Area in square miles .....	52,712
Paid hunting licenses	
Fiscal year 1950 .....	286,260
Federal apportionment .....	\$343,507.25
State contributions .....	\$114,502.42

Pictured above is a scene from Bob Brown's Science Circus which appeared in the Ecusta Cafeteria on September 22nd.

Few 15 year olds get as large a charge out of helping their father as does Betty Brown, daughter of science showman Bob Brown. The "crackling personality" exhibited by Betty is the result of electricity—four or five hundred times as much as the 2,000 volts used to operate Sing Sing's electric chair.

The picture was taken at the high point of the act when Brown stood Betty on a metal plate, wet her bare feet, and turned on the current. With a loud roar a million volts climbed through her body and streamed out of her upraised finger tips. The secret of survival: very high frequency electricity which, when used correctly, is not only harmless, but, as Betty says, "feels fine."

## ANSWERS TO KRIB KWIZ

1. Alice In Wonderland.
2. In a pouch on the underside of their stomach.
