AMERICA'S SMALLEST COLLEGE SEMI-MONTHLY

Vol. VI Asheville-Biltmore College, Asheville, N. C., March 26, No 10

## CAST FOR SNOW WHITE IS CHOSEN

It was announced on March 7 that the cast for the May Day play, "Snow White and the Seven Dwarfs," had been chosen. Playing **Snow White** will be Modena Penland; **Prince Charming** will be Earl Seckinger; the **Queen**, Jean Brigman; the **hunter**, Herbert Allen; the **Queen's servant**, Martha Jeanne Moore; and the **seven dwarfs** will be Alfred Hughes, Walter Bryant, Lewis Israel, Charles Norman, Jack Rogers, Howard Barton, and David Richardson.

Heard as "the voice in the mirror" will be Janet Hodges. The **Prince's men** are Sammy Parker, Glenn Norvall, Ed Taylor, and Gerald Thompson.

Property managers are Rose Marie Brown and Sylvania Lyda. Virginia Speirakis and Jean Harrison are in charge of designing and building sets.

### BUSINESS CLUB ELECTS OFFICERS

The college Business Club, composed of students enrolled in the Secretarial and Business Administration departments, was reorganized at a meeting of the group on February 24.

An election of officers, by popular ballot, highlighted the initial meeting. Rose Marie Brown was named president. Other officers are vice-president, Jane Hooper; secretary, Modena Penland; treasurer Betty Ann Fryar; reporter, Martha Jeanne Moore.

Any student with courses in secretarial or business administration

work is eligible for membership in the club. Its purpose is to develop leadership and to broaden the students' knowledge of business.

### JIMMY RAY CONDUCTS ASSEMBLY PROGRAM

A very interesting assembly program was held on February 28 with Jimmy Ray in Charge.

He had on display several rocks, which included samarskite (uranium, radium ore), calcite from New Jersey, calcite from Texas, corundum (variety ruby), pitchblende (uranium and radium ore).

With the aid of the ultra violet light shining on each of the rocks separately one could see the beauty of the different colors that appeared in the rocks.

When asked whether or not every rock contained these colors, Jimmy replied, "No, only the ones that contain minerals would show up under the ultra violet light.

He was assisted in the demonstration by Lewis Israel and George McCracken.
