FINAL ISSUE! GRADUATION SPECIAL!

Showing of "The Birth of a Nation"

After a postponement when the film failed to arrive, the Speech-Drama Club's showing of "The Birth of a Nation" finally materialized on April 9, instead of on April 6, which had been the date previously announced.

Ticket sales, originally expected to top 300, totalled only 48, with the result that the showing failed to even meet expenses.

"We cannot be expected to put on activities of this sort," speech-drama director, Eugene H. Fernette announced, "unless we obtain greater cooperation from our students and faculty in supporting such events."

TIME OUT FOR SPIRITUAL GUIDANCE

LANTERN OF THE LORD

The following paraphrase of the 23rd Psalm was written by a Korean student about her experiences in crossing the 38th parallel to flee from Communist oppression in North Korea in 1946.

"The Lord is my lantern—
He lightens up the road I take;

Although the way be dark and rough,
since I have the Lord's lantern, I will not be
hesitant about where to step.

Because the light of the Lord's love illuminated my way I was able to come over the 38th parallel in one leap.

Although my life is one of wandering in a valley where the Red Horse charges, I am not terrified, for He is with me.

The Lord's love inspires me and draws me and encourages me. My cup runs over.

Because the Lord will give light through my whole life, I will dwell in his bright and shining house forevermore."

FACTS ABOUT OUR COLLEGE DID YOU KNOW THAT—

- the fortune accumulated by the Seeley's (who built the estate which is now our College campus) was derived from a patent medicine?
- that the lions flanking the driveway where it passes beneath the library were brought from Atlanta?
- that what is now the office of our college was the children's play room when this was the Seeley's estate?

Student Body President

Asheville-Biltmore has again been fortunate this year in having a capable president, Jim Mulvaney.

He has been a good leader and representative of Asheville-Biltmore and has upheld the things for which our school stands.

Mulvaney became president in last spring's election, as a result of his ability and past experience in holding offices.

All year Mulvaney has kept busy doing things for the school, and taking part in sports. Even having important duties to perform has not changed his disposition and character. He is the same, good-natured Mulvaney that the students of last year's sophomore class knew.

A-B Fashion Highlights

Spring is finally here. What a relief! I thought it would never come. But it has, and with it have come some attractive spring clothes.

The A-B student body has been wearing some very good-looking spring outfits. Martha White received many compliments on her avocado green-and-white check dress, as did Julia Kerice in her aqua-and-white check dress.

Barbara Maxwell looked "summery" in her yellow floral-designed dress with its black background, while sister Sylvia sported a gorgeous baby blue Nylon blouse.

Loise Edney has a pretty green-and-white striped dress with a green sweater ensemble. "Gina" Bostic wore a gorgeous orange dress and sweater ensemble.

Among the students who have worn outstanding blouse-and-skirt ensembles are: Patsy Jackson, Barbara Johnson, Katherine Thomas, Jerre Robinson, and Gwen Huffman.

The young men of the campus look cool in their short sleeved sport shirts. Among the "cool cats" are Jim Sullivan, Don Rohrbough, Ronnie Dalton, Mack Cox, Bill Case and all the men of the campus.

It has been fun commenting on the finery of the A-B students this past semester. I am sorry that I couldn't mention all the things that were lovely. Everyone always looks attractive on the A-B campus. Thanks for your cooperation in my column. I hope I haven't misspelled too many names.

Regardless of your fashion choices, however, remember this: Keep wearing those beautiful smiles and you will always be in style!
