He was adamant in that it had been a supprise to even

points. When the modified re-port of the research staff still proved unacceptable, all docu-

ments were channeled through

the administrative staff lawyers

who were to describe the resear

ch findings in a politically ac-ceptable document which would then be presented to the Com-mission members."

The major question is how much information will be available to other researchers. AS IS says

some of the most damning in-formation may go into the Na-

tional Archieves for five years, where it will be available only

to selected researchers. The commission staff may make information available to some

other groups, such as the Am-erican Sociological Association

but observers have speculated that this merely means there

will be two sets of reports.

President Cancels Report Says "As Is"

WASHINGTON (CPS) - The Presidential commission study-ing last summer's riots will deliver its final report several months ahead of its original deadline, with much of its research incomplete, because its re-searchers' findings didn't jibe with the kind of report the Ad-ministration wanted. AS IS, a newsletter on civil

rights and community action ed-ited by Dave Steinberg of the National Student Association, says the commission's adminissays the commission sectors and number trative staff supressed much of what the researchers had found. As an example, AS IS says the researchers found in one city that "there was no question that the police – not Negroes -- were the rioters, bringing a bloodbath to an innocent Negro community,

AS IS says that, faced with these reports, the Administrative staff of the commission, in consultation with the White House, decided that this information had to be supressed because: It "would embarras too many

It "would embarras too many people in an election year." -- "There would be too few kind words for local police, or for local political leaders." -- The report "could only sup-port an outcry for radically in-creased federal expenditure," while the President is cutting domestic programs to meet the expenses of the Vletnam war. So the final deadline for the com-mission report was moved up. This is what happened, according So the final deadline for the com-mission report was moved up. Gritical Stage For Peace Corps

By WALTER GRANT College Press Service

WASHINGTON — The Peace Corps, once the Mecca of many student idealists, is on the threshhold of what could be the most crucial period in its seven-year history.

Few will deny that the Peace Corps has been one of the most successful and popular of the New Frontier programs initiated during the Kennedy Administra-tion. But the Peace Corps now faces many new and delicate problems, most of them a direct result of the war in Vietnam.

The tactfulness with which these problems are solved with-in the next few years may well determine whether or not the Peace Corps can survive on a large scale, and if it can, how effective it will be in accom-plishing its original mission.

Peace Corps officials—who in the past have had little trouble convincing young people to give up two years of their life to work in an underdeveloped country — now find themselves on the defensive for the first time. The major problem is the Peace Corps' close association with the federal government at a time when the government is unpopular among young people. spring.

Since most Peace Corps volun-teers come directly from the campus, the corps' recruiting. figures are based on the aca-demic year. So far, applications this year are running about 4, 000 behind last year. "But with our major recruiting drive still abead of us, we expect to at Peace Corps officials, includ-ing Agency Director Jack Vaughn, are not ready to admit the corps has problems. But some other high-ranking govern-ment officials have confirmed privately the corne may be in privately the corps may be in ahead of us, we expect to at

Recruiting figures alone indi-cate the Peace Corps has less appeal now than it had a year ago. In November, 1966, the Peace Corps received 7,097 ap-plications from college seniors.

Despite efforts by corps offi-cials to convince the public that it is not losing its appeal, offi-cials admit the corps is more Last November, applications were filed by only 3,768 seniors, controversial on the campus to-day than at any other time in nearly a 50 per cent reduction its history. Overall, the Peace Corps re

ceived 9,661 applications last November, compared with 12,-411 in November of 1966. Re-cruiting also was down in De-cember, with the corps receiv-ing 7,095 applications last De-compare compared with 8,298 in The main reason for this, Vaughn said, "is a feeling that we are an official part of the establishment." One govern-ment official explained, "Be-fore the United States became deeply involved in Vietnam, young people did not mind so much being associated with the government, but now they do." cember, compared with 8,288 in 1966.

Peace Corps officials, how-ever, claim these figures should not be interpreted as meaning the corps is losing its appeal to students. "The decrease is at-tributable to the style of re-cruiting in the fall of 1966 com-pared to that in 1967," one of-ficial explained. "In late 1966, we put on a major recruiting drive which hit its peak in No-vember. In 1967, however, we visited 25 per cent fewer schools in the fall. During the current academic year, we will have our major recruiting effort in the spring." However, Vaughn says the expanding group of student rad-icals who want to be completely disassociated with the govern-ment is not affecting the Peace Corps. "We don't in any sense, or never have, tried to tailor a message for the activist. Our message is more to the con-Our message is more to the con-cerned, and the concerned can be of almost any political stripe," he said in an inter-

But Vaughn admits Peace Corps recruiting on campuses is more difficult now than it was several years ago. "Most camp-uses are boiling," he said. "There is more noise and more turmoil, which makes it much harder for us to get our mes-sage through." A few years ago it was easy for a recruiter to it was easy for a recruiter to talk with students, he said. "But

least equal last year's figures," now there's a lot of rivalry, and it's harder to get that con-versation for a half hour."

Although the Peace Corps is associated with the "Establish-ment," there have been no probhere, there have been no prob-lems between recruiters and student radicals, Vaughn said. "Words have been exchanged on occasion, but nothing to consid-er a confrontation."

The major problem for corps recruiters comes when a col-lege or university gives them space in their placement office rather than in a prominent open area on campus, such as in the Student Union Building, Vaughn said. "We don't seek respect-ability. All we seek is a chance to talk, and if nobody knows where you are, your exposure is so limited you don't have a chance to talk."

When Vaughn talks about the present status of the Peace Corps, he emphasizes that the total number of volunteers over-seas—now about 15,000—is high-er than ever before, and the corps is expanding at the rate of about eight new countries a vear year.

Whether this expansion can continue or not, however, is un-certain. "In the past," Vaughn admits. "the only thing holding us back has been the lack of enough candidates to serve as volunteers." Since the corps now must appeal to young peo-ole who as a group are becom-ing more and more anti-govern-ment, this problem may be just beginning.

While the Art Lab in the Humanities Building remains relatively quiet and clean, the new Art Annex is the scene of the noisy and messy process of stone and wood sculpture.

Michelangelo, the Renaissance sculptor, felt that "sculpture" was accomplished by the removal of material from a whole, as in wood and stone, not by adding, as in clay and plaster. The lat-ter he described as "molding." The A-B art students, are, in the true sense of the word, sculpting, and are using tools no more advanced than those used

by Michelangelo. "It's really hard work, phy-sically as well as mentally," said Lani Campbell, sitting beside her half-sculpted block of marble. "While you're swingmarble. "While you're swing-ing a two-pound hammer, and chipping away at the stone, you have to keep a lot of things in

mind. "First you have to hit it hard enough to chip off enough rock so that you can finish it in a reasonable amount of time, but, if you hit it too hard, you'll end up with two blocks of mar-ble instead of one. Also, as you're chiseling and hammering and rasping and sanding, you have Cont'd On Page 3
