Specialized housing to begin next fall

By Ken Hardy

UNCA's Office of Housing and Residence Life will experiment with specialized housing during the 1986 fall semester.

The Housing office is taking steps to provide residence halls which accommodate students' needs and interests, according to Pete Williams, housing director.

Beginning in the fall, the Highrise will contain two "quiet" floors. These 24-hour quiet halls will be located on the north halls of the sixth and seventh floors.

Stemming from a housing survey distributed earlier in the semester by the Housing office, residents showed enough interest for more than one 24-hour quiet floor, said Williams.

Seven north is already a 24-hour quiet floor. Six north was chosen because fewer students would be displaced. Williams said he wanted to "displace as few (residents) as possible."

Theta Chi fraternity comprised most of six North this semester. Most of the fraternity is moving to the village in their own designated

dorm, said Williams.

Other fraternities on campus will have their own dormitory next fall.

Theta Chi will live in the first and second floors of Swain dorm. Pi Lambda Phi will reside on the first and second floors of Aycock dorm.

"The highrise is not conducive for fraternities and specialized housing. There are no commons areas for large groups to meet," said Williams.

He also said the village dorms contain large storage areas on the first floors. These areas are scheduled for renovations during the summer. They will serve as meeting rooms and lounges for village residents.

Some sororities will receive specialized housing in the highrise.

Seven south will accommodate Delta Beta and third south will house Alpha Xi Delta.

According to Williams, the housing situation with Alpha Xi Delta did not "pan out." The sorority showed "the least number in way of a commitment."

night. Pictured (L-R) are Toshi Kitada, Tim "Tina Turtle" Summey (the 1986 queen), Neil Barnes, Keith Hege, Joe Kuhn and Scott Kendrick.

Problems with parties continue on campus

By Julie Ball

Sponsors of an April 10 party held on the soccer field failed to totally comply with stricter alcohol policies, a mistake which could have resulted in liability problems for the sponsors, according to Helen Carroll, associate director for athletics.

The Mud 500 Club (M5C) and Pi Lambda Phi sponsored the party, and did not have an advisor or campus police officer at the party.

Parties on the soccer field where alcohol will be served are required to have a campus police officer or an advisor to monitor the event, said Carroll.

She was unsure of how the policy was enforced in the past, but Rob Rusnak, former president the M5C, said their organization was not required

to have an officer at a party held last spring.

According to the UNCA Student Guide, "Organized events such as pre-planned parties on the athletic field where alcohol will be served must have prior written approval from the athletic director and a UNCA alcohol beverage permit completed."

The guide does not, however, specify the requirement of a campus police officer.

It also is the responsibility of all groups who serve alcohol at parties to check IDs, said Carroll.

According to Carroll, she had never handled an alcohol beverage permit before the April 10 party since this is her first year in the position.

Tom Atkins, current M5C president, said their group
