Hart and Roeders capture office in record turnout

UNCA students elected new Student Government Association (SGA) officers last week with the largest election turnout in recent years, according to Athena Fox, SGA elections co-

Athena Fox, SOA commissioner.
Rosalee Hart was elected SGA president with 57 percent of the vote. Hart took 317 of the total 553 votes for president according to Fox.

President:

Vice President:

Junior senators:

Sophomore senators:

Commuter senators:

Hart's opponents in the race split the rest of the vote with Vivian Lackey obtaining 23 percent and Lynda Kroeger obtaining 20 percent of the vote.

Around 600 students or 20 percent of the total student body voted for at least one candidate in last week's election, according to Fox. This is the largest turnout in the past nine years, according to SGA records.

Marcus Roadess was a total students are stated as the state of the state of

Marcus Roeders won the race

for SGA vice president in a runoff election yesterday. Roeders received 254 out of 502 votes defeating Karla Jacobson by eight votes.

The runoff for the vice presidential office was scheduled after no candidate received a "50 percent plus one vote" majority in the original election held last week, according to Fox. The "50 percent plus one vote" majority is required by the SGA constitution, according to Fox.

Fox said she was pleased with the large turnout for the runoff election. "Nobody expected this many people to turn out. We were all very pleased," said Fox.

The turnout of last week's

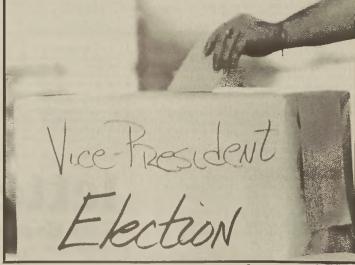

pleased," said Fox.

The turnout of last week's election was nearly double the turnout of the first election held in March.

Members of SGA organized a second election after receiving numerous complaints about the procedure of the first election. Increased publicity was one reason for the increased turnout, according to Fox. Fox also cited a candidates forum and speeches as possible reasons for the increased turnout. Hart said she thought that the increase in turnout was due, in part, to an increase in publicity. "They (voters) knew the names but not the faces in the first election. This time they knew the ideas behind they head they have the ideas behind they head they have the ideas behind they knew the ideas behind they they knew the ideas behind they have the ideas the interest they have the ideas the time they knew the ideas behind they they knew the ideas the time they are the time the time they are the time the time they are the time they are the time they are the time the time they are the time the time they are the time they are the time th the first election. This time they knew the ideas behind the

they knew the ideas behind the names," said Hart.

Dr. Bill Sabo, assistant pro-fessor of political science, agreed increased publicity cre-ated increased voter turnout in the second election. "Informa-tion costs are the biggest bar-

to people getting involv-said Sabo.

ed," said Sabo.

Increased publicity lowers information costs and increases involvement, according to Sabo.

Sabo said the turnout was "good for a UNCA student election."

In addition to president and

In addition to president and vice president, the following students were elected to office:

Treasurer: Shawn Fitzpatrick Senior senators: Jerry Buck-er, Tom Nye, Sharon Lance Junior senators: Richard

Disser, Micheal Todd, Russell Ratcliff

Rob Young. senators: Rob Young,

Maria Dickerson, Amy Thomp-

Son
Commuter senators: Nicole
Benton, Amy Jones and Robert Straub.

The newly elected SGA president said her top priority is increasing communication be-

tween SGA and students and faculty. Hart, who took office last week, said she is currently working on getting "computerized signs" placed in the Highsmith Center, Carmichael Hall and Zagier Hall. SGA is also in the process of submitting budget requests for the coming year and revising the coming year and revising the SGA Constitution, according to

Hart.
"There's a lot to learn. I'm still learning," said Hart.

Controversy surrounds proposal to end remedial math

By Joan Schnyder

As the controversial proposal by the math, department to end remedial math courses comes before the Academic Policies Committee (APC), a group of students are organizing an effort to save the courses.

The proposal which calls for the elimination of remedial Math courses: 102 Basic Math I, 103 Basic Math II, 104 Basic Math I and II, 105 Intermediate Algebra and 151 Finite Mathematics, was proposed to APC in late

January. Earlier in the year, the math department had voted 8 to 3 to eliminate the courses. APC members will meet tomorrow to discuss the proposal.

This proposal will "without a doubt improve the quality for a UNCA education. They will establish us as a front runner in compliance with recent actions by central administration and will expound our commitment to the elimination of remedial courses at the college level," said Dr. David Kay, chairman of the

However, not everyone on campus agrees with may benefit."

Kay's assessment of the proposal, and a group of UNCA students interested in saving the proposal among the faculty of the mathematics courses distributed flyers throughout the campus department.

in an attempt to encourage other students to attend the APC meeting.

In the flyer, prepared by Basic Math student loyce Ann Jones, the group appealed to students to show support for the courses. The UNCA math education is to continue to the directly affect you, if you agree that students students who come to us, allowing us to the mathematics.

One member of the math department who is opposed to the change is Dorothy Sulock, instructor of mathematics.

The best way to improve the quality of UNCA math education is to continue to the directly affect you, if you agree that students who come to us, allowing us to the mathematics opposed to the change is Dorothy Sulock, instructor of mathematics.

The best way to improve the quality of students who come to us, allowing us to have the right to the benefit of these courses come Thursday and show your support so others come Thursday and show your support so others

Enrollment expected to increase

By Jerri Henderson

The number of students at UNCA is expected to keep growing next year, according to Archer Gravely, director of institutional research.

The applications for freshmen this year are up 39 percent compared to last fall, said Larry Wilson, vice chancellor for academic affairs at a recent Faculty Senate meeting.

for academic affairs at a re-cent Faculty Senate meeting. As far as the next fall semester goes, it's "going to be tight." The projected enroll-ment is 3200, where last fall's enrollment was 3061, said Gravely

Gravely.

This increase in enrollment is not unique to UNCA; it is happening all over the country, said Dr. Pamela Nickless, chairperson of the Faculty Sen-
