

The Clarion

The Brevard College Weekly

Vol. I

Brevard College, Brevard, North Carolina, October, 16 1935.

No. 4

Editor Elected

Bill Davis
Editor - in - Chief

Gets 161 Votes

The chapel period Friday morning was given over to the election of the editor. Odell Salmon and Willis Turner were the other nominees. Thomas Graham, President of the Student Body, presided over the election.

During the discussion on the nominees, a heated argument arose over the question as whether a freshman or sophomore should be elected. This was caused by the fact that Salmon who has had several years experience in newspaper work is a freshman, while Davis, who also has experience, is a sophomore.

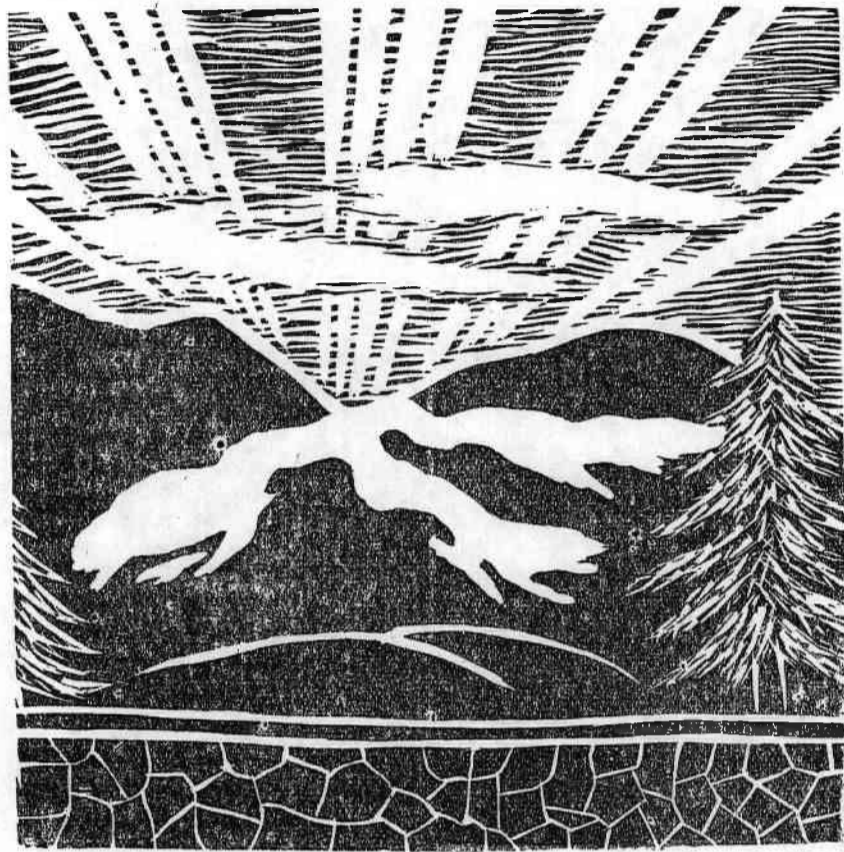

William Davis is from Badin, N. C. where he was very prominent in his High School. In his sophomore year at Badin High he was the feature story writer, the next year he was the sports editor, and in his senior year he was editor-in-chief of the high school paper. He was a two letter man in high school the same as he is here, playing football and basket ball. In scholastic rating Bill is among the first.

Besides his sport affiliations here he is a member of the Closophic Literary Society and the Nature Club.

President Coltrane Discusses Friendship

On Tuesday morning President Coltrane spoke interestingly at the assembly period on the bases of friendship. True friendship may be developed by discovering the quality of other people, by being able to see into the souls of other people, and by learning to tolerate other people. President Coltrane said, "Where two persons or a group of persons are united in a common cause there is likely to be friendship." He pointed out that "friendship cannot be based on selfish advantage. If we are seeking friends selfishly we will not find them."

A motto may be seen in the college which is not commendable for its English, but for its truth. It is "It ain't no disgrace to fall, but to lay there and grunt is."

Campus Notes

The Tornado B team will go over to the Asheville School for Boys Friday afternoon for their debut of the season.

We are glad to welcome back to the campus Miss Alice Scott and Mr. Thelbert Wright who have been away on account of illness.

Mr. Dendy announced Wednesday that a large supply of glassware and dissecting tools have been received at the biology laboratory. It is hoped that there is enough material for each student taking biology to have a complete apparatus. Lockers will soon be constructed, providing a place for students to keep their outfits. This plan will avert loss of time which now exists by the personal distribution of these materials at each laboratory period.

The Tornado B team will meet Blue Ridge School For Boys on home ground next Thursday afternoon at 3 o'clock.

The B team composed of boys who have played only a part of the varsity games. According to reliable information Blue Ridge has a very strong team and this should prove a well matched game.

Who ate twenty thousand eight hundred and sixty seven dollars worth of food last year? Not any one person we hope. A bulletin is being issued by the College giving a statement of the finances for the past year. The above amount is that spent for food and provisions.

The College dairy laboratory is now testing milk for the Health Department of Brevard. This is one little instance of how a college and a town can cooperate to their mutual advantage.

Even the august faculty of Brevard will occasionally forsake their toil and go to Pisgah Forest to roast and eat some lowly hot-dogs. At any rate that is their plans for Friday afternoon.

Do not neglect to attend Vespers Sunday. That is the time for the whole College to come together in a distinctively devotional service. Mr. Buckner is to lead and that insures a splendid program.

The champion strong man of the student body has been discovered in the person of Vivian Watts. He is the press man when the Clarion is printed. While operating the press which weighs about twelve hundred pounds he raised up one side of it and hung it on the back of a chair.

A Mr. Dixon aroused all of Ross Hall the other night asking where his heart was. He should have asked the co-eds for it.

Tourists Visit our Campus

Approximately seventy representatives of travel bureaus covering the entire eastern coast were guests of the citizens of Brevard and Brevard College at a luncheon served on the campus Wednesday at 1:15.

This group of travel secretaries are on a twelve day tour of North and South Carolina, traveling as the Carolina Scenic and Historic tour.

The purpose of the tour is to accumulate information to give vacationists as to the merits of this section. They are locating such spots as educational institutions, camps, lakes, mountains, and hotels. The highways and means of travel by bus and train as well as automobile motoring are studied.

The group assembled at Greensboro as guests of the AAA. Coleman Roberts, president of the Carolina Motor Club, is heading the tour. They will go into South Carolina, up the coast, and back to Greensboro.

They were the guests of Grove Park Inn at Asheville Wednesday night for dinner, at which time Robert Latham, editor of the Asheville Citizen, made a talk on this section of the state.

Undoubtedly this tour will increase vacation travel in this section.

Conference

Western North Carolina to Meet at Salisbury Next Wednesday.

The meeting of the Western North Carolina Conference of the Methodist Episcopal Church, South at Salisbury the 23rd is of vital importance to Brevard College. This College was founded by that Conference and is owned by it. The College must look to the Conference for its support. This includes the patronage which is largely from the territory of the Conference, moral support, and financial backing. The financial support must be increased if the College is to do the work for which it was founded. President Coltrane will attend the Conference and we are sure he will do everything possible for the College.
