Crip Courses

Biology ---- Sophomore English

It is time a word of warning was given to those students who persistently get into Biology because it requires no study and very little work and therefore is an easy target for quality-point hunters. This attitude has a detrimental effect on our school and should not be tolerated. Each quarter an alarming increase is noted in such courses. We are not insinuating that it is Mr. Dandy's fault that Biology is a crip course, because even under Miss Smith sophomore English has found its way into this category.

Some students have even reached such a stage that when they are unable to get another course in one of these subjects, rather than pursue a more difficult subject under some one else, they will just remain another quarter in the same class.

We understand that it is necessary for some to take these courses because of requirements, and this is perfectly o. k. However, those of you who are eternally crowding these courses for quality points and hours, following the line of least resistance, are the ones we are condemning.

E. Hyatt, I bet this makes your face red.

Miss Smith: "Tell me something about Walpole."

Robert Moss: "Walpole was a rotten borough in England."

Students Object To Recent Dances

There has been considerable opposition to the recent dances given by the faculty. In sampling public opinion on the campus it has been found that such dances are arousing the students because they are expected to attend, and it often causes them to lose time needed for studying. It also interferes with the entertaining dates that could be had in the "Biddie Coop" at such hours.

Students endeavour to carry out the desires of the faculty insofar as possible; however, the students wish to make the following requests of the faculty:

(1) That hereafter dances be given not more than once each quarter.

(2) That such future dances be brought to a close not later than 12 o'clock.

(3) That the respective deans keep closer check upon all dating, especially those dating in the "Biddie Coop," getting the aid of Mr. Andrew and Miss Killough if it is found necessary.

(4) That rules prohibiting unnecessary conversation between boys and girls be passed. Other regulations thought necessary are that no cuts be allowed anyone, and that no dietician be permitted to serve chicken, steak, ice cream and such foods more than twice a week, substituting soup or hash and having a sack lunch on Sunday evening.

A careful check reveals that the students are 100 per cent in favor of the above requests, and we hope the faculty will see fit to carry them out.

Typical Lectures

Mr. Andrew made the following lecture to his history class: "At the time of Peter the Great women were kept in a harem; but Peter the Great changed this and gave them freedom. -- Peter the Great's three great aims were realized - - Russia gained temporarily an outlet to the Black Sea, but the Turks forced them to give it up - - Frederick II built up a strong army and won the title of Frederick the Great."

An A student on the back row, however, misunderstood some of the word; and the following statements were found in his notes: "At the time of Peter the Great girls were kept in the Biddie Coop. Peter the Great attempted to westernize it. Peter the Great's three great dates were

Forum

Dear Editor:
Us Brevard College Dogs would like a say-so in this paper. (Excuse me while I scratch. I think I have a bite.) As I was expodulating, we Dogs (including the ones in Taylor Hall) read every issue of the Clarion.

What we would like is a little space devoted to "Canine Philosophy." I am sure an able dog can act as the Bow-Wows' reporter.

Now "eddy, ole wag" why not have a campaign for Bigger and
