

Pine Whispers

Well, well, here we are back at Brevard. I hope everyone is ready for a large year. So remember, if you're human, there will be whispers; and when there are whispers, just watch this little old column. We're off.

It's good to see that the summer helped to make the flame burn even brighter between Milly Davidson and Ralph Anderson, Mickey Case and Don Helms.

Whiffer is still going for Joann Schaeffer, in spite of a trying week end and some heavy teasing these last few days.

We wonder if Sonny Allen has had as much trouble as we have deciding which of the Gossman sisters is cuter.

Bateye didn't waste any time in singling out one of our dark-eyed, dark-haired freshmen for himself. Neither does he waste much time on anyone else, for a change!

Can anyone get the connection between Hershey's visit Sunday and Janie's date with Bruce Monday night? Beats me.

Bam Bam isn't selfish with that old charm of his—he tries to give all the little girls a huge thrill.

We notice that D. P. is still true to his gal back home. Too bad he was taken before the B. C. girls had a chance.

The boys aren't the only ones who can make a try for the locals. Eh, Evon?

P. R. is out in the field once more. We would advise all the boys to keep up their guard, and the girls to let us know if they find a Casteen-proof way of defense. (Just kidding, of course, P. R.)

Ebby and Ernie are falling all over each other to see which can make the best time with Joyce Wilhelm. Here's to the victor, our congratulations!

Ginger, how does it feel to have Thomas up here with you for a whole year?

We notice that Bob and Lib started the year right. They still have that certain look in their eyes.

"Mac", who is the boy who escorted you to the movies last week and this past Monday night?

Pat, is it true that you have Bobby Hauss snowed?

Seems that Chester has been having to go to the dentist pretty often. Margaret, is it you or football that does such things to him?

We guess Maria will be counting the days till Christmas, especially since Hosea will come then. Eh, Maria?

Dale and "Speedy" are together again, and we're glad. We think that they are a real fine couple.

Someone told us that Dot Wallace liked the movie the other night. Or maybe we've got it backwards—could it be the company that she liked?

It seems that several of the girls over at West Hall are after Manuel. Watch that stuff, Manuel.

Looks as if the boys from Concord and Kannapolis like home town girls best.

Russell G., are you trying to make a survey of the girls on campus, or haven't you found one you like yet?

"Florida", if you don't stop flashing those brown eyes at the girls, you'll soon have a string of females a mile long following you.

All we have to say to Eddie and Mary Jo is just this: "Keep up the good work."

Guess by now you've all noticed that cute gal from Junaluska—Natalie, by name.

Well, kids, if we didn't hear
